

Annual Report on the Status of Sponsorships Granted by the Company in 2021

The National Company Nuclearelectrica SA (“SNN”) deems as important the involvement in supporting activities carried out by non-governmental associations, non-profit organizations or eligible institutions according to the applicable law, having a beneficial impact on a significant number of people. In line with the corporate social responsibility statement of SNN, published on the website of the company, the activities supported by SNN are, predominantly, those related to the energy field, and also those related to the active participation in organizations that promote nuclear energy, sustainable public policies in the economic and energy field, such as professional or academic associations involved in the promotion of culture and education. The goal of the involvement in such strategic activities for the energy field, besides supporting the development of local initiatives of national importance contributes to promoting the image of SNN as a responsible and credible company towards shareholders, potential investors and the public. Furthermore, the participation in the programs conducted by NGOs, by virtue of their resources and credibility, provides SNN with benefits both directly, by increasing the acceptance of nuclear energy and the company's nuclear projects, as well as indirectly, by ensuring a favorable climate for nuclear energy.

In line with the strategic directions adopted by the management of the company, SNN extended its charity program, in order to be able to respond to the punctual requests received from various organizations, which corresponded with the goals and interests of SNN, with projects with major and durable impact in social areas requiring investments, and which provide the potential of creating and maintaining a positive image for SNN.

Based on Order 704/2014 and the Resolution of the Extraordinary General Meeting of Shareholders number 8/October 6, 2014, the drafting by the Board of Directors of an annual report on the status of sponsorships granted by the company and the publication, on the company's website, by no later than the end of January, of the report prepared for the previous year, was approved.

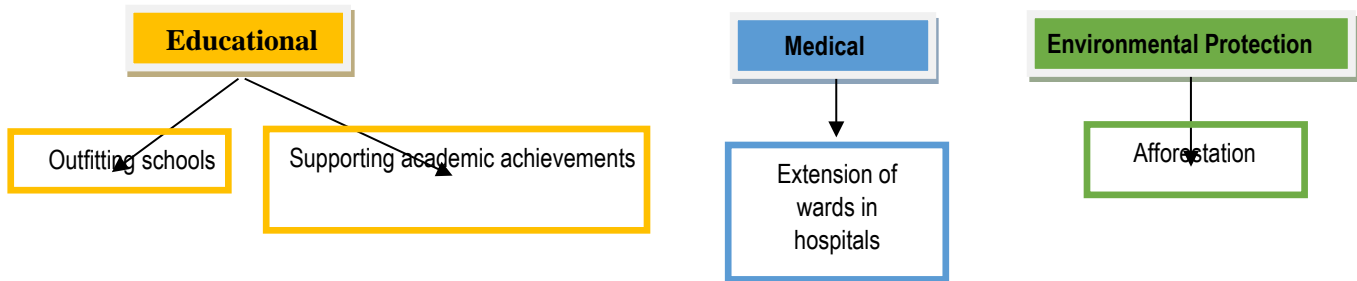

The National Company Nuclearelectrica SA (“SNN”) deems as particularly important the involvement in supporting activities carried out by non-governmental associations, non-profit organizations or public institutions, having a beneficial impact on a significant number of people. Thus, investing a share of the annual profit of SNN in CSR actions and sponsorships is an integral part of the development strategy of the company for 2015-2025.

With its actions, SNN aims to respond to the community's real problems, to contribute to the change for the better that the Romanian society needs to grow new generations of youth and offer them a more sustainable future. SNN acknowledges that economic activities increasingly require an ethical foundation that places man, the environment and social considerations in the center of business, and constantly maps the interests and concerns of stakeholders to identify areas for improvement. SNN, part of Romania's public life, contributes with its own resources to improving the quality of life in the communities targeted by CSR projects and the sponsorships granted by the company. SNN's involvement in society is necessary in order to contribute to the building of a sustainable and performing Romanian society. CSR projects and sponsorships target the most urgent needs of communities and the environment, in view of actively participating in the improvement of living conditions through SNN's commitment to support strategic partnerships with civil society.

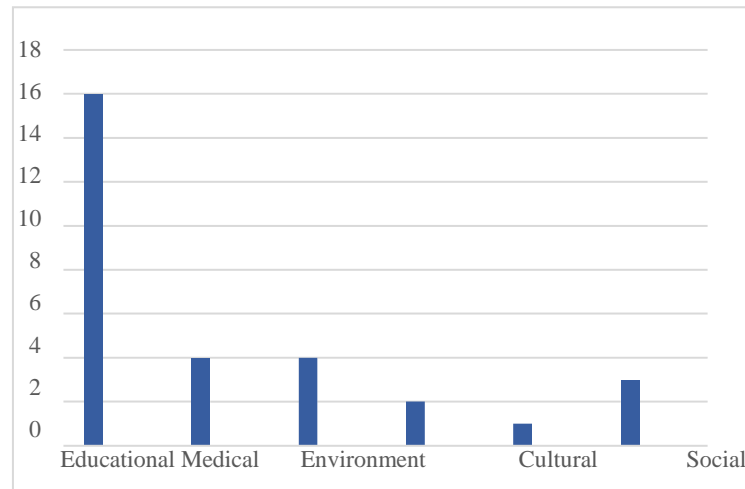

In 2021, SNN invested the estimated amount of RON 9.38 million in community involvement actions, carried out 30 projects and impacted a number of over 3.3 million Romanians.

Through its entire CSR activity, SNN aims to support a sustainable business model, with responsible management and global policies tailored to local issues, and to launch the real desirable change in the Romanian society. SNN annually reviews and deploys a plan of planned and targeted CSR actions and sponsorships, focused on several social problems that have been identified. Social responsibility, regardless of the nature of its implementation, is an integral part of the company's vision and strategy, and SNN continues to support both the local community, and the initiatives leading to innovation and continuous development, especially those of young people.

The main guidelines for CSR actions and sponsorships in 2021, in line with the specific nature of SNN's business, and aimed at promoting development and bringing added value in the communities where the company is operating, have targeted actions in the following areas and sub-areas of interest:

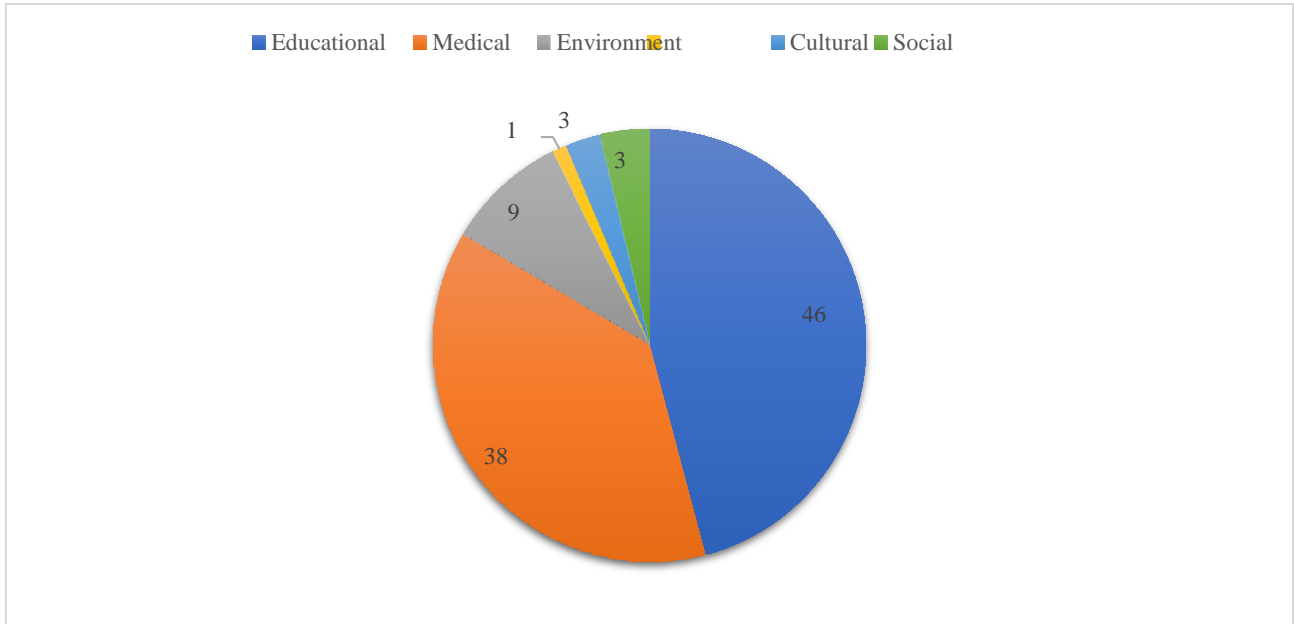

In line with the strategic directions adopted by the management of the company, in 2021, SNN extended its community involvement program, in order to be able to respond to the punctual requests received from various organizations, which corresponded with the goals and interests of SNN, with projects with major and durable impact in social areas requiring investments. After receiving sponsorship requests from non-governmental and institutional associations and having analyzed them, SNN supported 30 projects, with a total invested budget of RON 9.38 million, impacting over 3.3 million Romanians.

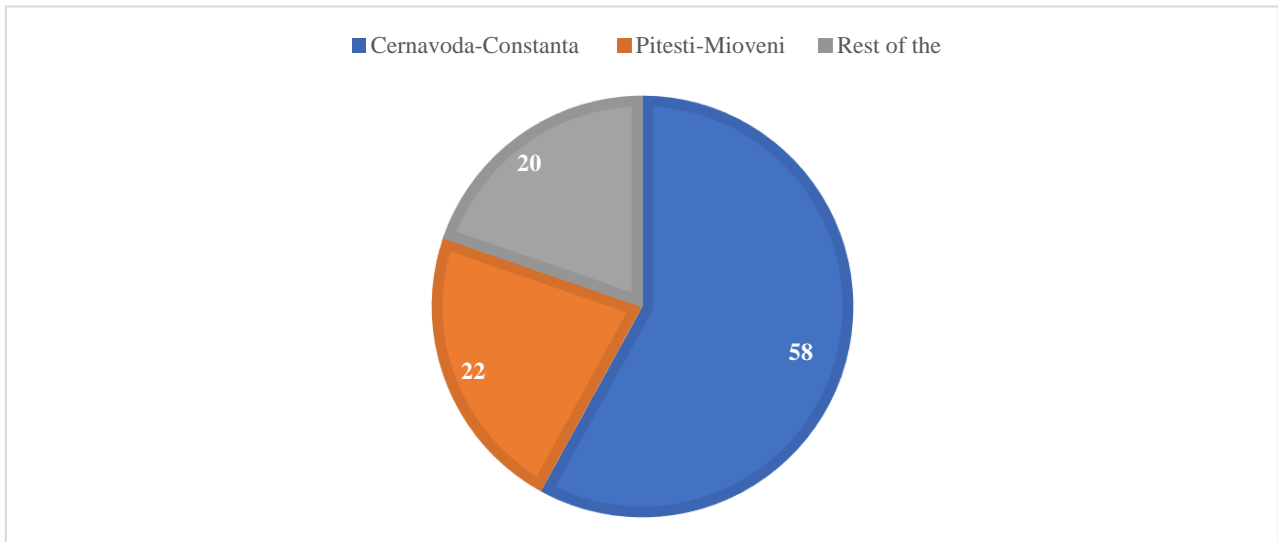

The 30 projects supported by SNN fall into the following categories:

- **Educational:** 16 projects, budget invested: RON 4,245,470.15, representing 46 % of the total budget invested in 2021
- **Medical:** 4 projects, budget invested: RON 3,485,499.27, representing 38 % of the total budget invested in 2021
- **Environment:** 4 projects, budget invested: RON 845,450

- **Cultural:** 2 projects, budget invested: 99,208
- **Social:** 1 project, budget invested: RON 246,040
- **Other sponsorships:** 3 projects, budget invested: RON 335,177.

In the Cernavoda area, SNN invested approximately RON 5.44 million through 12 projects, while for the Pitesti-Mioveni region it directed the estimated amount of RON 2.09 million through 4 projects.
