

## Annual report on the statement of sponsorships granted by the company during the year 2022

According to Order 704/2014 and of the Extraordinary General Meeting of Shareholders number 8/6.10.2014, the Board of Directors approved an annual report regarding the statement of sponsorships granted by the company and the publication, on the company website, of the report prepared for the previous year.

Nuclearelectrica considers to be very important its involvement in supporting the activities carried out by non-governmental, non-profit associations or by public institutions, which have a beneficial impact on a significant number of people. Thus, investing a share of the annual profit of SNN in shares by CSR and sponsorships shall be an integral part of the company development strategy during the period 2015-2025.

Nuclearelectrica, as part of public life in Romania, shall contribute with its own resources to the improvement of the life quality in the communities targeted by CSR projects and sponsorships granted by the company. CSR projects and the sponsorships in which the company involves, target the most urgent needs of the communities and environment, in order to actively take part in the improvement of the living conditions and to build a sustainable future for the next generation.

Through its entire CSR activity, Nuclearelectrica intends to support a sustainable business model, with responsible management and global policies adjusted to local issues and to initiate the desirable actual change in the Romanian society. Nuclearelectrica examines and conducts on a yearly basis an action plan planned and targeted by CSR and sponsorships, focused on several fields of action identified. Social responsibility, regardless of the nature of its implementation, is an integral part of the company's vision and strategy, and Nuclearelectrica continues to support both the local community, and the initiatives that lead to innovation and continuous development.

In 2022, Nuclearelectrica launched the social responsibility platform the "Nucleus of Care", which follows the strategic directives and the vision of the company to build a sustainable future for the future generation, both by clean power production at excellence standards, and by the social and economic impact which it has in Romania.

The "Nucleus of Care" platform includes both social responsibility initiatives of the company, and projects that the company selects to sponsor, in the "Nucleus of Care" project selection.

The "Nucleus of Care" platform has sustained the projects included in the priority fields for the company, such as:

- **Education** - projects which contribute to the creation and development of the educational environment through specific actions of renovating and equipping schools, both with specialized laboratories (physics, chemistry, computer science, robotics, etc.), and in terms of online education, which requires the possession of tablets, laptops and other equipment for laboratories and properly and modernly equipped classrooms for online education, mentoring projects, career development, access to quality education, granting scholarships etc.
- **Medical** - projects increasing access to high-performance and high-quality medical services through actions of equipping with medical equipment, services, actions or other activities related to this field.
- **Environmental protection**- environmental projects likely to emphasize the essential role which the company has in the climate change management through actions of forestation/reforestation, actions of building green spaces in those communities where Nuclearelectrica operates, actions to support the environmental/mountain organizations, etc.

In 2022, Nuclearelectrica got involved in the community through:

- 60 projects
- Lei 10.58 million committed budget
- 15 million Romanians beneficiaries of the programs
- 14 projects in the medical field
- 31 projects in the educational field
- 10 projects in other fields
- 3 environmental projects
- 2 projects in the sports field

## Appendix 1
