

# QUARTERLY REPORT OF THE BOARD OF DIRECTORS S.N. NUCLEARELECTRICA S.A.

("SNN")

Q3 2023

**Date of report: November 2023** 

## **CONTENTS**

1.	BASIS OF THE REPORT	3
2.	ANALYSIS OF THE FINANCIAL SITUATION	3
2.1.	Statement of Financial Position as at 30 September 2023	3
	Statement of Profit or Loss for the 9-month period ended 30 September 2023	
2.3.	Execution of the Income and Expenditure Budget as at 30 September 2023	6
3.	OPERATING ACTIVITIES	7
3.1.	Electricity generation	7
3.2.	Sales of electricity	7
3.3.	Expenses made on the electricity market	.11
3.4.	Investment program as at 30 September 2023	.12
3.5.	Financial investments in subsidiaries and related entities	.15
3.6.	Activity of Cernavodă NPP Branch	.15
3.7.	Activity of NFP Pitești Branch	.19
4.	OTHER SIGNIFICANT ASPECTS	.20
	Key matters related to continuation of the Project to Increase the Production Capacits 3 and 4 Project	
4.2.	Refurbishment Project of Unit 1 Cernavodă NPP	.21
4.3.	Development of the first small modular reactor (SMR) – RoPower Nuclear S.A	.21
4.4	Project for the tritium removal facility - CTRF	.22
	Fabrica de Prelucrare a Concentratelor de Uraniu ("FPCU") Feldioara - SNN sidiary	.22
4.6.	Litigation started by Cernavodă NPP Union and employees of Cernavodă NPP Bran 23	nch
	Litigation started by the S.N. Nuclearelectrica S.A. regarding certain measures to alate the facilities granted to pensioners in the electricity sector	.23
	Dispute concerning the insolvency of Compania Nationala a Uraniului; application stration of a claim of SNN	
4.9.	Dispute concerning the request for public information about the Doicești Site Surve	y24
4.10	). Changes in the management of the company - Directors	.24
4.1	1. Changes in the management of the Company - Board of Directors	.24
4.12	2. Relocation of SNN's registered office	.25
4.13	3. Memorandum of Understanding with Emirates Nuclear Energy Corporation (ENE	C)
4.14	4. Approval of distribution of the net profit of financial year 2022	.25
	5. Development of nuclear medicine in Europe under an innovative agreement with YXT Medical Ltd, part of BWX Technologies	.26
	6. Planned shutdown of Unit 2 within Cernavodă NPP	

$4.17. \ The inclusion of SNN in the MSCI Frontier Markets and MSCI Romania indices 26$
4.18. Signing of the Memorandum of Understanding with Energocom for the development of long-term cooperation in the energy sector
4.19. Automatic disconnection of Cernavodă NPP Unit 1 from SEN27
4.20. Signing of the Letter of Intent with the Three Seas Initiative Investment Fund to explore the possibility of collaboration in the renewable energy generation sector in Romania
4.21. International collaboration between SNN and Laurentis Energy Partners to advance the production of medical isotopes in Romania
4.22. Positive revision of the rating granted by Fitch
4.23. Major litigations 27
4.24. Other information
5. MAIN ECONOMIC AND FINANCIAL RATIOS as at 30 September 202329
6. ACTIVITY OF EXECUTIVES WITH MANDATE AGREEMENT29
7. DEGREE OF ACHIEVEMENT OF THE KEY PERFORMANCE RATIOS29
Appendix 1 - Statement of Financial Position as at 30 September 202331
Appendix 2 – Statement of Profit or Loss for the 9-month period ended 30 September 2023 $32$
Appendix 3 - Execution of the Income and Expenditure Budget as at 30 September 2023 33
Appendix 4 - Major litigations (in excess of RON 500 thousand), including litigations whose value was not assessed, pending as at 30 September 202334
Appendix 5 – Degree of achievement of the key performance for the Board of Directors, aggregate for Q3 202342

#### 1. BASIS OF THE REPORT

The quarterly report of the Board of Directors for the period 1 January - 30 September 2023 is drawn up based on the provisions of art. 69 of Law no. 24/2017 regarding the issuers of financial instruments and market operations, republished, and the Mandate Contracts concluded by the Board of Directors with SNN.

#### 2. ANALYSIS OF THE FINANCIAL SITUATION

The Information and the Individual Interim Financial Statements as at and for the 9-month period ended 30 September 2023 disclosed in this report were not audited and not revised by the company's financial auditor and have prepared in accordance with the Order of the Minister of Public Finance no. 2844/2016 for the approval of Accounting Regulations compliant with the International Financial Reporting Standards ("IFRS-EU") adopted by the European Union, based on International Accounting Standard 34 - "Interim Financial Reporting", adopted by the European Union.

The ratios presented are in thousands of lei (RON), unless otherwise specified.

#### 2.1. Statement of Financial Position as at 30 September 2023

The financial position as at 30 September 2023 is stated in **Appendix 1**.

Ratio [Thousand RON]	30 September 2023 (unaudited)	31 December 2022 (audited)	Variation
Fixed assets	6,311,172	6,049,279	4.3%
Current assets	6,183,180	5,743,493	7.7%
Total assets	12,494,352	11,792,772	5.9%
Long-term liabilities	431,111	456,762	(5.6%)
Current liabilities	834,338	800,505	4.2%
Total liabilities	1,265,449	1,257,267	0.7%
Equity	11,228,903	10,535,505	6.6%
Total equity and liabilities	12,494,352	11,792,772	5.9%

**Long-term assets** increased by 4.3% compared to the values recorded as at 31 December 2022. The increase is mainly determined by the increase in financial assets valued at amortized cost, respectively the purchase of long-term bonds (RON 234.7 million, the equivalent of EUR 47 million on 30 September 2023), the granting of the loan to the associated entity RoPower SA in the amount of RON 21 million, as well as the increase in financial investments in associated entities and subsidiaries, represented by the increase in the contribution in the share capital of RoPower SA by RON 15 million and the increase in the contribution in the share capital of EnergoNuclear SA by RON 23 million.

Current assets registered a 7.7% increase as compared to 31 December 2022, mainly as a result of the 4% increase in cash availability (bank deposits with a maturity of less than 12 months, cash and cash equivalents), the 29% increase of the value of outstanding trade receivables, also as a result of the 22% increase in existing stocks on 30 September 2023.

**Long-term liabilities** decreased by 5.6% compared to the values recorded as at 31 December 2022. The decrease is mainly determined by the reduction of the long-term portion of the foreign loans contracted from EURATOM for the construction and commissioning of Unit 2 of Cernavodă NPP, as a result of the reclassification of the instalments due from the long-term portion to the short-term portion, as the loans mature.

Current liabilities registered an increase of 4.2% compared to the values recorded as at 31 December 2022, due to the increase in trade and other payables, mainly as a result of the recognition of the liability to the Energy Transition Fund as at 30 September 2023, as well as the increase in the corporate tax payable as at 30 September 2023, all amounts having been paid in full in October. The increase was partially offset by the decrease in short-term deferred income due to the decrease in prepayments invoiced to customers.

#### 2.2. Statement of Profit or Loss for the 9-month period ended 30 September 2023

In the 9-month period ended 30 September 2023, SNN obtained a net profit amounting to RON 1,976,614 thousand.

Ratio [Thousand RON]	9-month period ended 30 September 2023 (unaudited)	9-month period ended 30 September 2022 (unaudited)	Variation
Production (GWh)*	7,622	7,410	2.9%
Operating revenues, of which:	5,659,471	4,910,534	15.3%
Revenues from the sale of electricity**	5,547,008	4,829,890	14.8%
Operating expenses, less depreciation and			
impairment	(1,082,256)	(1,388,541)	(22.1%)
Cost of contribution to the Energy Transition	(2,059,256)	(872,931)	135.9%
Fund/tax on additional income	( ) )	( ) )

Net profit	1,976,614	1,939,091	1.9%

 $<sup>^</sup>st$ Electricity produced and delivered by Cernavodă NPP in the National Energy System.

The **operating profit** (EBITDA) decreased by 4.9% compared to the same period of the previous year, under the significant influence of the increase in the cost of the contribution to the Energy Transition Fund payable for the period 1 January - 30 September 2023, which was 135.9% higher than the tax on additional income due for the similar period of the previous year. The main causes of the increase in this tax are the changes made to the calculation methodology detailed below, as well as the increase in the reference amount, represented by the revenues from the sale of electricity which, in the period 01 January - 30 September 2023, are higher than in the similar period of the previous year.

**Operating income** increased by 15.3%, an evolution supported by the 14.8% increase in income from the sale of electricity, determined by the 15.5% increase in the weighted average price, including Tg, of the electricity sold during 1 January - 30 September 2023 compared to the weighted average price from

<sup>\*\*</sup>Including income from the sale of thermal energy, insignificant in total income.

the same period of 2022, under the conditions of the sale of a similar total amount of electricity, an increase of 2.9%.

Compared to the same period of last year, the key change occurred in the sale mix is represented by the introduction of the Centralized Electricity Acquisition Mechanism ("MACEE"), set up under the Government Emergency Ordinance no. 153/2022, for the period 1 January 2023 – 31 March 2025, in which SNN participates as producer. OPCOM S.A., as sole purchaser, according to Article 2 and Article 3(2) of the Government Emergency Ordinance no. 153/2022, buys electricity from producers at a price of 450 RON/MWh, and sells it to buyers at the same price. In the period 01 January - 30 September 2023, the Company sold via MACEE a quantity of 3,384,409 MWh at the price of 450 RON/MWh, which accounts for 43.96% of the total electricity sold during the period.

The amount of electricity sold on the competitive market of bilateral contracts decreased by 51.4%, accounting for 42.01% of the total sold quantity, and the average selling price on this market increased by 103% (price without Tg).

The amount of electricity sold by SNN on the spot market (DAM and IDM) in the first 9 months of 2023 increased by 0.5%, accounting for 13.65% of the total sold quantity, and the average selling price on this market decreased by 57% (price without Tg).

The cost of the contribution to the Energy Transition Fund/tax on additional income, of RON 2,059,256 thousand, due for the period 1 January - 30 September 2023, increased by 135.9% (1 January - 30 September 2022: RON 872,931 thousand), due to the changes made to the calculation methodology and as the increase in the reference amount, represented by the revenues from the sale of electricity which, in the first 9 months of 2023, are higher than in the similar period of the previous year.

As at 30 September 2022, the tax on additional income was determined as 80%, applied to the difference between the monthly average selling price of electricity, calculated according to the calculation methodology, and the price of 450 RON/MWh, pursuant to Article II(1) of Law no. 259/2021 for approving the Government Emergency Ordinance no. 118/2021, as subsequently amended and supplemented. The calculation method is set out under the Government Emergency Ordinance no. 27/2022 (Appendix 6).

In the period 01 January - 30 September 2023, the contribution to the Energy Transition Fund was determined as 100%, applied to the difference between the monthly average selling price of electricity, calculated according to the calculation methodology, and the price of 450 RON/MWh, pursuant to Law no. 357/2022 approving the Government Emergency Ordinance no. 119/2022. The calculation methodology applicable for the current reporting period did not allow deduction, from the reference amount, of the cost of the purchase of electricity and the cost related to accessing the energy markets (Tg and market management costs), as the methodology applicable in the similar period of the previous year used to allow. During the period 01 January 2023 - 30 September 2023, the monthly expenses only included the cost of unbalances.

Operating expenses, less depreciation and amortization and expenses with the contribution to the Energy Transition Fund / additional income tax, decreased by 22.1% during the period 01 January - 30 September 2023, compared to the same period of 2022. This decrease is determined by the decrease in expenses regarding the purchased electricity, the amount of electricity purchased in the first 9 months of 2023 decreased by 76% compared to the similar period of the previous year.

The financial result positively influenced the net result, so that in the period 01 January – 30 September 2023, net financial income was recorded, increasing by 126.7% compared to the similar period of the previous year, as a result of the interest income obtained. The main currencies with exposures are EUR and CAD.

The net income tax expense decreased by 2.9% as a result of the decrease in the taxable profit calculated for the period 01 January - 30 September 2023 compared to that calculated for the similar period of the previous year, also influenced by the impact of deferred income tax expenses and revenues recognized during the reporting period.

The profit and loss account for the 9-month period ended 30 September 2023 is presented in **Appendix 2.** 

#### 2.3. Execution of the Income and Expenditure Budget as at 30 September 2023

The 2023 Income and Expenditure Budget ("IEB") of SNN was approved by Resolution of the General Meeting of Shareholders no. 1/15.02.2023. By its Resolution no. 232/27.10.2023, the Board of Directors approved the rectification of the Revenue and Expenditure Budget for the year 2023.

The company is monitored in terms of meeting the ratios, objectives and performance criteria, i.e., in terms of compliance with the salary fund, the level of revenues and expenses, the program for reducing arrears and debts that are past due.

The execution of the IEB as at 30 September 2023 is presented in **Appendix 3** to this report.

Reviewing the performance of the Rectified Income and Expenditure Budget as at 30 September 2023 (presented in **Appendix 3**), it results that total income has been achieved in a proportion of 100.6%, and total expenses have been achieved in a proportion of 96.9%, therefore gross profit has been achieved in a proportion of 107.1%.

#### 3. OPERATING ACTIVITIES

#### 3.1. Electricity generation

The gross electricity production of the two operational units of Cernavodă NPP was 8,287,615 MWh for the first 9 months of 2023 (of which 2,942,733 MWh in the third quarter of 2023); from this gross production, the own technological consumption of the Units during operation, as well as during shutdowns ensured, from own production, was 665 thousand MWh in the first 9 months of 2023 (of which 240 thousand MWh in the third quarter of 2023).

Thus, the electricity generated and delivered in the National Energy System ("SEN") was 7,622,416 MWh in the first 9 months of 2023, compared to the same period of 2022 (7,410,474 MWh), representing an increase by 2.9%. In the third quarter of 2023, the amount of electricity produced and delivered in the SEN was 2,702,277 MWh, increasing by 2.7% compared to the level recorded in the third quarter of 2022 of 2,631,270 MWh.

The net electricity production program approved by the Board of Directors for the year 2023 (March 2023 revision) considered a quantity of 10,218,912 MWh, and for the first 9 months of 2023, considered a quantity of 7,477,070 MWh, being achieved in proportion of 101.9% and for the third quarter of 2023, it considered a quantity of 2,647,123 MWh, being achieved in proportion of 102%.

The installed power utilization factor, recorded by each operational unit within Cernavodă NPP in the third quarter of 2023, as well as in aggregate from the start of commercial operation (Unit 1 on December 2, 1996, Unit 2 on 1 November 2007) until 30 September 2023, was as follows:

Cernavodă NPP unit	Cumulative first half 2023	July 2023	August 2023	September 2023	Aggregate 2023	Aggregate since the first date of commercial
						operation
Unit 1	97.67%	93.97%	87.34%	94.56%	95.74%	90.56%
Unit 2	77.50%	96.81%	96.80%	97.63%	84.07%	93.75%

The lower value of the installed power utilization factor at Cernavodă NPP Unit 2 reflects the influence of the planned shutdown with an effective duration of 934 hours, recorded starting on 7 May 2023 at 11:00 a.m. The unplanned extension of the planned shutdown of Cernavodă NPP Unit 2 was 6.7 hours, and lasted until 15 June 2023 at 15:41.

At Unit 1, starting from August 8, an unplanned shutdown of 44.4 hours was recorded.

#### 3.2. Sales of electricity

As part of the electricity trading activity, the Company has the obligation to submit bank guarantee letters to certain contractual partners, in accordance with the provisions stipulated in the electricity sale - purchase contracts. These mainly refer to: the contract concluded with C.N. Transelectrica SA for transmission of electricity; the agreement concluded with OPCOM S.A. for electricity trading on DAM (Day-Ahead Market) and IDM (Intra-Day Market); contracts concluded on the CMBC-CN (Centralized Market of Bilateral Electric Energy Contracts - the transaction modality according to which contracts

are awarded through Continuous Negotiation) platform; the BM (Balancing Market) participation agreement concluded with C.N. Transelectrica S.A.

For the purpose of this activity, during 1 January - 30 September 2023:

- 8 bank letters of guarantee (issued in 2021 and 2022) amounting to RON 123,383,979 were liquidated; and
- 4 bank letters of guarantee amounting to RON 132,927,000 were issued
- the value of four one letters of guarantee was increased, from RON 2,777,000 to RON 3,668,000.

As at 30 September 2023, there were 4 bank letters of guarantee on balance, amounting to RON 133,818,000.

The electricity sold during 01 January - 30 September 2023 and the corresponding revenues, distributed per types of sales contracts are presented in the table below:

#### Electricity sales (quantities, prices and values) during 01 January - 30 September 2023:

Sales by type	Quantities in MWh	% of total sales	Average price [RON/MWh including Tg]	Sale revenues [RON]
Sales via MACEE	3,384,409	43.96%	450.00	1,522,984,185
Sales on the competitive market (bilateral agreements and sales on DAM and IDM), of which:	4,285,213	55.66%	942.37	4,038,260,789
- Sales under CMBC-EA Flex, CMBC-CN, CM-OTC contracts, directly negotiated contract and supply contracts	3,234,459	42.01%	1,079.72	3,492,324,142
- Sales on DAM and IDM	1,050,754	13.65%	519.57	545,936,647
Positive imbalances on PE*	29,459	0.38%	269.19	7,929,827
Total sales during Q3 2023, aggregate	7,699,080	100%	723.36	5,569,174,801

<sup>&</sup>lt;sup>\*</sup>) Note: the values also include RON 1,947,791 of additional system balancing income, according to ANRE Order 213/2020. The value of the positive imbalances related to September 2023 is estimated.

The amount of electricity sold through the Centralized electricity purchasing mechanism under contracts on the spot market (DAM and IDM) as well as on the PE market is 7,699,080 MWh, 1.4% above the sales schedule, of 7,593,947 MWh (measured according to the production forecast, without estimating unscheduled shutdowns) and 0.4% lower than the amount of electricity sold in the similar period of 2022.

The difference between the electricity sold by the Company and the electricity generated and delivered by Cernavodă NPP (76.6 thousand MWh) is represented by the electricity purchased in order to fully cover contractual obligations, 47% of which was purchased on the spot market and 53% on the PE market.

The revenues gained on the electricity market related to electricity deliveries in the first 9 months of 2023 amount to RON 5,569,174,801, 0.05% higher than the rectified revenues budgeted for 2023, at 9 months, and 15% higher compared to the amounts gained in the first 9 months of 2022.

The weighted average selling price, for the quantities of electricity sold (without MACEE and PE), resulting from 01 January - 30 September 2023, is 942.37 RON/MWh (including Tg). For comparison, the weighted average price of all transactions concluded on the markets in which SNN was active in the first 9 months of 2023 (CMBC-EA-flex, CMBC-CN, CM-OTC, DAM and IDM), calculated based on the values published by OPCOM in the monthly market reports, is 723.36 RON/MWh. During 01 January - 30 September 2022, the weighted average selling price, for the quantities of electricity sold (without PE), was 625.90 RON/MWh (including Tg).

SNN is the seller under the Centralized Electricity Acquisition Mechanism (MACEE), set up under the Government Emergency Ordinance no. 153/2022, for the period 1 January 2023 – 31 March 2025. OPCOM S.A., as sole purchaser, according to Article 2 and Article 3(2) of the Government Emergency Ordinance no. 153/2022, buys electricity from producers and sells it to buyers at the price of 450 RON/MWh, via the Electricity Centralized Acquisition Mechanism. In the first 9 months of 2023, the Company sold via MACEE, to OPCOM, 3,384,409 MWh.

The quantities of electricity sold on the competitive market of bilateral contracts represented in the first 9 months of 2023 a percentage share of 42.01% of the total volume of electricity sold, compared to a percentage share of 86.10% recorded in the similar period of 2022.

The average selling price on bilateral contracts during the first 9 months of 2023 was 1,079.72 RON/MWh (Tg included), registering an increase of 103% compared to the average price recorded in the previous similar period, of 532.50 RON/MWh (Tg included); provided that the value of the transmission tariff for the introduction of electricity into the network Tg amounted to 1.49 RON/MWh starting from 1 January 2022 (according to ANRE Order no. 124/25.11.2021), 2.53 RON/MWh starting with 1 April 2022 (according to ANRE Order no. 33/23.03.2022) and 4.04 RON/MWh starting with 1 April 2023 (according to ANRE Order no. 28/29.03.2023).

During the first 9 months of 2023, electricity amounting to 13.65% of the total sales value was sold on the spot market (DAM and IDM), as compared to 13.53% in the same period of 2022. The average selling price of energy on the spot market (DAM and IDM) achieved by SNN in the first 9 months of 2023 was 519.57 RON/MWh (Tg included), as compared to 1,220.54 RON/MWh (Tg included) during the previous similar period.

In the first 9 months of 2023, SNN performed 214 energy sales contracts, as follows:

- 64 contracts concluded on CMBC-EA-Flex;
- 2 contracts concluded on CMBC-CN;
- 113 transactions concluded on CM–OTC;
- 4 transactions concluded on LCM-RCE;
- 29 transactions negotiated directly based on the provisions of law no. 123/2012 of electricity and natural gas, as amended and supplemented, the provisions of article 23 paragraph (2) letter a) and the provisions of the Government Emergency Ordinance no. 27/2022, article 14 para. (6);
- 2 supply agreements for 2 end consumers.

No contracts were terminated and no significant delays occurred in terms of payment deadlines provided in the contracts in the first 9 months of 2023. In all cases where there were delays, the Company sent notifications and charged penalties according to the provisions of the contract.

The electricity sold in Q3 2023 and the corresponding revenues, distributed per types of sales contracts are presented in the following table:

#### Electricity sales (quantities, prices and values) in Q3 2023

Sales by type	Quantities in MWh	% of total sales	Average price [RON/MWh including Tg]	Sale revenues [RON]
Sales via MACEE	1,276,425	46.56%	450.00	574,391,025
Sales on the competitive market (bilateral agreements and sales on DAM and IDM), of which:	1,452,509	52.99%	882.42	1,281,724,123
- Sales under CMBC- LE Flex, CMBC- NC, PC -OTC agreements, directly negotiated agreements and supply contracts	1,086,441	39.64%	1,012.92	1,100,481,787
- Sales on DAM and IDM	366,068	13.35%	495.11	181,242,336
Positive imbalances on PE*	12,374	0.45%	193.72	2,397,055
Total sales during Q3 2023	2,741,308	100%	677.97	1,858,512,203

<sup>\*)</sup> Note: the values also include RON 1,193,738 of additional system balancing income, according to ANRE Order 213/2020. The value of the positive imbalances related to September 2023 is estimated.

The amount of electricity sold through the centralized electricity purchasing mechanism under contracts on the spot market (DAM and IDM) as well as on the PE market is 2,741,308 MWh, 1.5% above the sales schedule, of 2,700,744 MWh (measured according to the production forecast, without estimating unscheduled shutdowns) and 1.3% higher than the amount of electricity sold in Q3 2022.

The difference between the electricity sold by the Company and the electricity generated and delivered by Cernavodă NPP (39 thousand MWh) is represented by the electricity purchased in order to fully cover contractual obligations, 44% of which was purchased on the spot market and 56% on the PE market.

The revenues gained on the electricity market related to electricity deliveries in the third quarter of 2023 amount to RON 1,858,644,915, 0.6% higher than the rectified revenues budgeted for the second quarter of 2023, and 6% higher compared to the amounts gained in the third quarter of 2022.

The weighted average selling price for the electricity sold (without MACEE and PE) achieved in the third quarter of 2023 is 882.42 RON/MWh (including Tg). In Q3 2022, the weighted average selling price for the energy sold (without PE) was 645.25 RON/MWh (including Tg).

The quantities of electricity sold on the competitive market of bilateral contracts represented in Q3 2023 a percentage share of 39.64% of the total volume of electricity sold, compared to a percentage share of 91.13% recorded in Q3 2022. The average selling price on bilateral contracts during the current reporting period was 1,012.92 RON/MWh (Tg included), registering an increase of 91% compared to the average price recorded in the third quarter of 2022, of 528.97 RON/MWh (Tg included); provided that the value of the transmission tariff for the introduction of electricity into the network Tg amounted to 1.49 RON/MWh starting from 1 January 2022 (according to ANRE Order no. 124/25.11.2021), 2.53 RON/MWh starting with 1 April 2022 (according to ANRE Order no. 33/23.03.2022) and 4.04 RON/MWh starting with 1 April 2023 (according to ANRE Order no. 28/29.03.2023).

In Q3 2023, electricity amounting to 13.35% of the total sales value was sold on the spot market (DAM and IDM), as compared to 8.38% in Q3 2022. The average selling price of energy on the spot market (DAM) achieved by SNN during Q3 2023 was 495.11 RON/MWh (Tg included), as compared to 1,909.99 RON/MWh (Tg included) during Q2 2022.

In Q3 2023, SNN performed 57 energy sales contracts, as follows:

- 21 contracts concluded on CMBC-EA-Flex;
- 25 transactions concluded on CM-OTC;
- 4 transactions concluded on LCM-RCE;
- 5 transactions negotiated directly based on the provisions of law no. 123/2012 of electricity and natural gas, as amended and supplemented, the provisions of article 23 paragraph (2) letter a) and the provisions of the Government Emergency Ordinance no. 27/2022, article 14 para. (6);
- 2 supply agreements for 2 end consumers.

#### 3.3. Expenses made on the electricity market

During the period 01 January 2023 - 30 September 2023, the total expenses made on the electricity market SNN amount to RON 66,817,458, of which RON 23,260,231 are expenses on the balancing market (BM), RON 26,611,219 represent Tg (regulated tariff paid to C.N. Transelectrica SA for the injection of electricity produced by Cernavodă NPP into the electricity transmission network), RON 26,242 represents expenses with green certificates required to be purchased for the electricity supplied, and RON 1486296 represents the tariffs paid to OPCOM SA and RCE for sale and purchase transactions carried out on the platforms managed by them.

Expenditure made for the purchase of electric energy in the first 9 months of 2023 on the spot market (DAM and IDM) amounted to RON 15,433,468 (9 months of 2022: RON 345,877,777), with the aim of ensuring the full fulfilment of contractual energy delivery obligations. The amount of electricity purchased in the first 9 months of 2023 was 35,846 MWh (9 months of 2022: 257,258 MWh), at an average price of 430.57 RON/MWh (9 months of 2022: 1,344.48 RON/MWh).

Expenses on the PE in the first 9 months of 2023 amounted to RON 23,260,231, the quantity of electricity purchased being 19,102 MWh (9 months of 2022: RON 123,268,088, the quantity of electricity purchased being 51,000 MWh). This amount represents the value of the energy received from the BM to compensate for negative imbalances, which arose due to differences between the quantities of energy actually delivered and the quantities notified to the market according to the daily forecast for each settlement interval.

In the first 9 months of 2023, no electricity was purchased through forward contracts, compared to the same period of 2022, when the expenses generated by the purchase of energy through forward contracts were RON 6,080,179 for a quantity of 11,040 MWh.

The expenses for the purchase of electricity and negative imbalances were lower in the first 9 months of 2023, compared to the same period of 2022, due to the 76% lower electricity demand in the first half of 2023 compared to the similar period of 2022, combined with a significant decrease in the average price for the purchased quantities, from 1,488.2 RON/MWh in the first half of 2022 to 504.97 RON/MWh in the first half of 2023.

By applying Article II of Law no. 259/29.10.2021 and the Government Emergency Ordinance 27/18.03.2022, as updated under Law no. 357/2022, Nuclear electrica booked a cost with the contribution to the Energy Transition Fund of RON 2,059,255,999 during 1 January - 30 September 2023.

In the third quarter of 2023, the total expenses made on the electricity market SNN amount to RON 36,009,771, of which RON 16,696,259 are expenses on the balancing market (BM), RON 10,916,773 represent Tg (regulated tariff paid to C.N. Transelectrica SA for the injection of electricity produced by Cernavodă NPP into the electricity transmission network), RON 7,684 represents expenses with green certificates required to be purchased for the electricity supplied, and RON 470,733 represents the tariffs paid to OPCOM SA and RCE for sale and purchase transactions carried out on the platforms managed by them.

In the third quarter of 2023, the expenses for the purchase of electricity were made mainly on the spot market (DAM and IDM) and amounted to RON 7,918,321 (in the third quarter of 2022: RON 115,825,367). The purpose of the purchase is to ensure the full fulfilment of the contractual obligations to supply electricity during the unplanned shutdown of Cernavodă NPP Unit 1; the amount of electricity purchased in the third quarter of 2023 was 17,317 MWh (in the third quarter of 2022: 38,280 MWh), at an average price of 457.22 RON/MWh (the third quarter of 2022: 3,025.74 RON/MWh).

Expenses on the PE in Q3 2023 amounted to RON 16,696,259, the quantity of electricity purchased being 21,714 MWh (Q3 2022: RON 106,877,648, the quantity of electricity purchased being 36,248 MWh).

In the third quarter of 2023, no electricity was purchased through forward contracts, compared to the third quarter of 2022, when the expenses generated by the purchase of energy through forward contracts were RON 2.981 for a quantity of 5 MWh.

The expenses for the purchase of electricity and negative imbalances were lower in the third quarter of 2023, compared to the third quarter of 2022, with the increase in the number of cumulative operating hours, by 67 hours compared to the third quarter of 2022, which led to an 48% decrease in the need to purchase electricity compared to the third quarter of 2022. The effect of the decrease in demand was amplified by a significant decrease in the price for the purchased quantities, from 2,988.01 RON/MWh in the third quarter of 2022 to 610.27 RON/MWh in the third quarter of 2023.

#### 3.4. Investment program as at 30 September 2023

The total rectified amount of SNN's 2023 investment program is RON 710.318 thousand (without the component allocated to payment of debt service for long-term loans), which is higher than the rectified amount of the 2022 investment program (RON 609,220 according to the 2022 rectified IEB approved by the OGMS Resolution no. 10/19.10.2022). The rectified investment program for the year 2023 was approved by Resolution of the Board of Directors no. 232/27.10.2023.

The 2023 investment program of SNN includes the necessary investments within the Cernavodă NPP Branch, the NFP Pitești Branch and the Central Headquarters estimated to be completed by the end of 2023, as well as investment objectives to be completed in the following years.

When sizing the investment development program, S.N. Nuclearelectrica S.A. took into account the need of the branches (Cernavodă NPP and NFP Pitești) regarding production continuity, respectively reaching the highest possible level of production capacity utilization (EAF – Energy Availability Factor) in compliance with the nuclear safety regulations and with the long-term maintenance of the level of excellence in the operation of the plant.

At the same time, the development program also responds to the need to modernize/upgrade some of the plant's systems, which for economic reasons (reductions in specific consumption, improvement of

certain characteristic parameters of the processes served, with a positive impact on efficiency), and for legal reasons, require the implementation of certain improvements associated with nuclear safety, environmental protection and work safety, these representing imperative requirements, coming from the regulatory authorities in the field.

The investment program of SNN for 2023 was dimensioned in terms of value, taking into account ongoing contractual commitments, estimates regarding the investment objectives to be achieved by the end of 2023, including amounts allocated to certain investment projects for which the fulfilment of certain requirements beyond SNN's control was anticipated (for example: prior approvals of certain regulatory authorities, legal deadlines regarding the completion of public procurement procedures including appeals, obtaining the necessary approvals from the SNN corporate bodies, etc.), to allow the implementation of these projects within the approved budget values.

The comparative statement of investments made (as values and as percentages) for the period 1 January - 30 September 2023 compared to the same period of 2022 is presented in the table below. During 1 January - 30 September 2023, investments of RON 455,742 thousand were made (64.2% of the total 2023 rectified investment program), according to the internal planning.

Year	Investment program value [thousand RON]	Actual (01.01 - 30.09) [thousand RON]	Degree of completion (01.01 - 30.09) [%]
2023	710.318*	455,472	64.2%
2022	609.220*	422,383	69.3%

Note. The value of the investment program, and the calculated progress attained in 1 January – 30 September are in accordance with the figures approved in the rectified IEB 2022 and rectified IEB 2023

#### Analysis of the degree of completion of the investment program as at 30 September 2023

Some of the major projects or the projects that had an important share in the investment program (approved by the IEB 2023 rectification) and the way they will be carried out during the year 2023 are briefly presented here:

- "Extension of the service lifetime of Unit 1 by retubing the reactor and retrofitting the main systems": budgeted RON 258,628 thousand 51.9% completed in terms of value as at 30 September 2023;
- "Detrition facility Cernavodă NPP": budgeted RON 36,615 thousand 23.9% completed in terms of value as at 30 September 2023;
- "Replacing the rotor related to the main generator of 2-4121-G02 from U2 with a new rotor": budgeted RON 96,412 thousand 100% completed in terms of value as at 30 September 2023;
- "Planned shutdown of Unit 2 within Cernavodă NPP (regular general inspection and major repair works)": budgeted RON 87,719 thousand 78.7% completed in terms of value as at 30 September 2023;

- "Improving the response of Cernavodă NPP, namely the nuclear safety functions in case of events outside the design basis due to the nuclear accident occurred at the Fukushima 1 nuclear power plant, Japan (U5 fitting out) + SPSI 029 (Procurement engineering activities)": budgeted RON 27,166 thousand 14.1% completed in terms of value as at 30 September 2023;
- "Intermediate Dry Storage Spent Fuel Facility": budgeted RON 23,463 thousand 73.7% completed in terms of value as at 30 September 2023, slightly ahead of the initial planning;
- "EDMS replacement and integration with AS 9.X": budgeted RON 5,214 thousand 80.9% completed in terms of value as at 30 September 2023;
- "Software programs for the integrated management of the plant upgrade Asset suite 6.0.4 to version 9.X": budgeted RON 3,711 thousand 100% completed in terms of value as at 30 September 2023;
- "Facilities", representing purchases of goods and other investment expenses: budgeted RON 83,798 thousand 75.3% completed in terms of value as at 30 September 2023.

Between 1 January and 30 September 2023, a large number of projects were completed, of which we mention the following relevant projects:

- ➤ Increasing the reliability of SDS#1 by replacing the ROPT SDS#1 Unit 1 amplifiers and the Tusonix EMI filters on the NIM-BIN drawers with new, more reliable amplifiers and EMI filters similar to the ROP SDS#1 design;
- ➤ Installation of "on-line" measurement systems of the concentration of gases dissolved in the insulating oil of transformers 0-5134-T05 (TSPS) from U2;
- Modernization of the distribution system of class II, 220V a.c. at Unit 2;
- Fitting of a watertight door in the C/R part of the embedded part from the personnel flood gate, with a view to preventing flooding of the personnel flood gate in case of a severe accident U1;
- The intermediate storage of Spent Fuel Module 15 and the completion, in proportion of 98%, of Module 16;
- Replacing the rotor related to the main generator of 2-4121-G02 from U2 with a new rotor;
- > Improving the performance of the video system and Contact Scanner DCC U2;
- ➤ Qualification for severe accident and earthquake conditions of loops 2-63312-PT13 to PT16 and assurance of indications in SCA U2, MPA#EC 2892;
- > Supply of lifting gear for replacement of the electric hoists from R/B, R601 U1/U2 and for servicing the valves of the 41190 system from T/B U2;
- Refurbishment works of the ventilation and air conditioning system related to Pavilion 6 NOB Cernavodă NPP
- Replacement of the ventilation and air conditioning system related to Pavilion 2 and 6 of Cernavodă NPP;
- Ensuring supply if important users in U0 from own sources to increase operational safety in case of loss of power from SEN;
- > Replacing the rotor related to the main generator of 2-4121-G02 from U2 with a new rotor;
- ➤ Retrofitting the part for fire detection and control and monitoring of Deluge valves related to the transformers 0-5135-TC01/TC02, 0-5134-T1/T2;
- ➤ Software programs for the integrated management of the plant (WMS) upgrade AS/replacement EDMS.

#### 3.5. Financial investments in subsidiaries and related entities

#### Energonuclear S.A.

As at 30 September 2023 and 31 December 2022, the Company held 100% of the share capital of S.C. Energonuclear S.A. The shareholding value as at 30 September 2023 amounted to RON 222,438,103 RON (31 December 2022: RON 199,438,105).

#### Fabrica de Prelucrare a Concentratelor de Uraniu - Feldioara S.R.L.

As at 30 September 2023, respectively 31 December 2022, the Company held 100% of the share capital of F.P.C.U Feldioara S.R.L. The shareholding value as at 30 September 2023 amounted to RON 200 RON (31 December 2022: RON 200).

The Company's shareholders approved the granting of loans to finance the activities and expenses of the subsidiary. As at 30 September 2023, the total amount of the loan principal granted to the subsidiary is RON 8,600,000, with an accrued interest of 454,922 RON (as at 31 December 2022, the total amount of the loan principal was RON 3,600,000, with an accrued interest of RON 130,772).

#### **Nuclearelectrica Serv S.R.L.**

As at 30 September 2023, respectively 31 December 2022, the Company held 100% of the share capital of Nuclearelectrica Serv S.R.L. The shareholding value as at 30 September 2023, respectively 31 December 2022 amounted to RON 200.

The Company's shareholders approved the granting of loans to finance the activities and expenses of the subsidiary. As at 30 September 2023, the total amount of the loan principal granted to the subsidiary is RON 8,006,800, with an accrued interest of 334,209 RON (as at 31 December 2022, the total amount of the loan principal was RON 1,920,000, with an accrued interest of RON 44,478).

#### RoPower Nuclear S.A.

As at 30 September 2023, respectively, 31 December 2022, the Company held 50% of the share capital of RoPower Nuclear S.A., the shareholding value amounting to RON 19,943,000 (31 December 2023: RON 4,493,000).

In 2023, RoPower Nuclear SA concluded a loan agreement with SNN for the equivalent in EUR of the amount of USD 8,966,023, of which the amount of USD 4,556,949 was drawn until September 30, 2023. The loan was granted for the purpose of financing the technical assistance activities related to SMR Front End Engineering and Design (FEED) Phase 1. As at September 30, 2023, the outstanding loan principal amounts to EUR 4,257,240 (RON 21,178,068), and the accumulated interest amounted to RON 132,290.

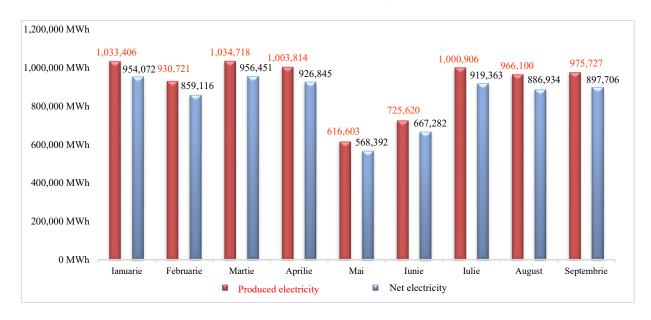

#### 3.6. Activity of Cernavodă NPP Branch

The operating activity took place without events that could have an impact on nuclear security, on the own personnel, the population or the environment. The relationship with the regulatory authorities was carried out in compliance with the requirements and conditions of the operating authorizations.

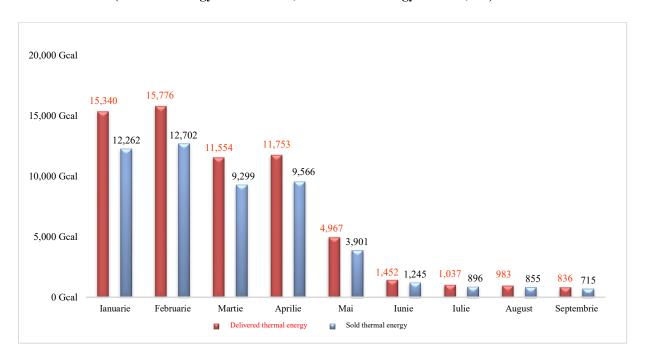

In the 9-month period ending on 30 September 2023, there was no operational event that exceeded level 1 on the international scale of nuclear events, regarding the degradation of defence barriers in depth, impact on the site or outside and no human error leading to an event with consequences.

The main ratios of the production activity are shown in the following diagrams.

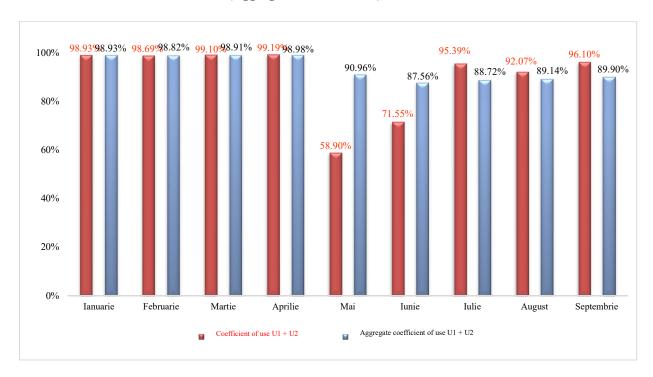

Produced/net electricity U1+U2 (MWh)
(Electricity produced: 8,287,615/Net electricity delivered: 7,636,164)
(Aggregate own technological consumption 2023: 7.86%)

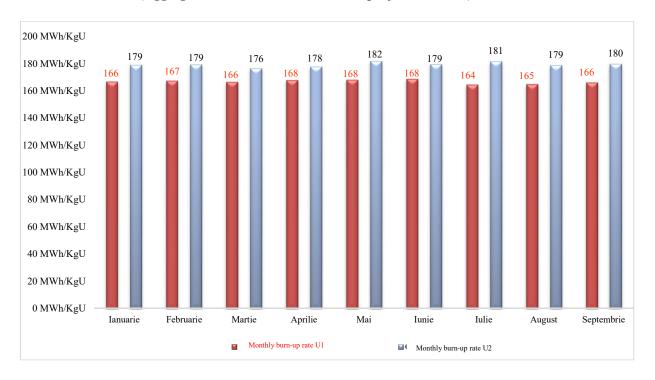

# Thermal energy delivered for heating/sold (Gcal) (Thermal energy delivered: 63,699/Thermal energy sold: 51,442)

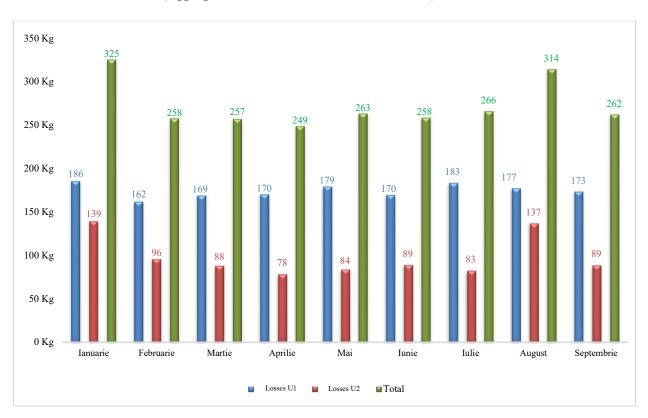

# Coefficient of use of the installed power U1+U2 (%) (Aggregate 2023: 89.99%)

# Nuclear fuel burn-up rate (MWh/KgU) (Aggregate 2023: 172.7/Planned in the project: min. 156)

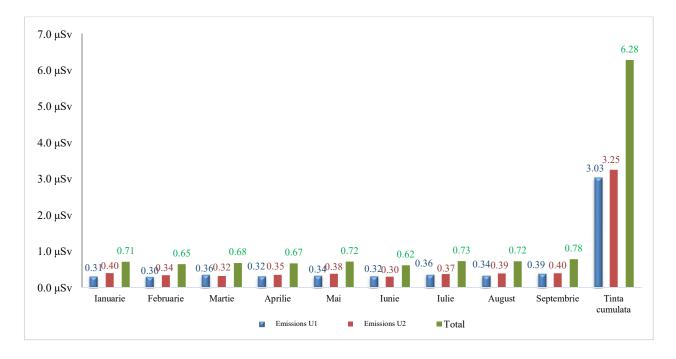

Heavy water losses U1+U2 (Kg) (Aggregate 2023: 2,452/ Planned: max. 10,280)

#### Volume of radioactive emissions in the environment U1+U2 (μSv)

(Total aggregate 2023: 6.28/Annual target: 9)

#### 3.7. Activity of NFP Pitești Branch

Between 1 January - 30 September 2023, NFP Piteşti Branch manufactured, controlled and accepted a number of 8,145 nuclear fuel bundles, 85 nuclear fuel bundles in excess to the manufacturing plan edition.0, all falling within the specifications, with the production of nuclear fuel bundles increasing by 3.80% compared to the same period of the year 2022, when 7,847 bundles were manufactured, controlled and accepted.

During 1 January - 30 September 2023, NFP Pitești Branch delivered to Cernavodă NPP a number of 7,920 nuclear fuel bundles (1 January - 30 September 2022: 8,640 bundles), in compliance with the agreed delivery schedule.

Between 1 January and 30 September 2023, for the production of nuclear fuel, sinterable uranium dioxide powder was consumed coming from the existing stock on 1 January 2023 and from deliveries of sinterable uranium dioxide powder from the processing of technical uranium concentrate purchased from NAC KazatomProm JSC – Kazakhstan.

#### 4. OTHER SIGNIFICANT ASPECTS

## 4.1. Key matters related to continuation of the Project to Increase the Production Capacity – Units 3 and 4 Project

As at 31 March 2023, Law no. 74, approving the signing of the Support Agreement between the Romanian State and Societatea Naţională Nuclearelectrica S.A. for Cernavodă NPP's Units 3 and 4 Project, was passed.

On 9 June 2023, the Support Agreement was signed between the Romanian State - the Government of Romania, the General Secretariat of the Government, the Ministry of Energy, the Ministry of Finance, the Ministry of Transport - and Societatea Nationala Nuclearelectrica, in order to develop the National Strategic Project Cernavodă NPP Units 3 and 4.

The signing of the Support Agreement between the Romanian State and Nuclearelectrica for the development of the Cernavodă NPP Units 3 and 4 Project allows the start of activities related to Phase II of the Project, namely: The conclusion of the agreements for the preparation of the critical engineering necessary for updating the project; updating the Project budget, Structuring and contracting financing and agreeing on an appropriate contractual architecture for implementation of the Project; Obtaining the favourable Opinion of the European Commission further to the Project Notice according to Article 41 of the EURATOM Treaty and a positive decision in accordance with the relevant European provisions on State Aid; Obtain the Nuclear Security Authorization for the Construction Phase and have the Final Investment Decision taken for advancement to Phase III (Construction).

By signing the Support Agreement, the Romanian state undertook to take the necessary steps to finance the Cernavodă NPP Units 3 and 4 Project, including through: granting State Guarantees to the Project's financers under the terms of any intergovernmental support agreements or memoranda, or outside such agreements; implementing the "Contracts for Difference"-type scheme and adopting the administrative and/or legislative measures required to ensure the fulfilment of the technical criteria provided for in the Complementary Delegated Act of the European Commission; the contribution being represented by the quantity of heavy water and uranium octoxide related to the first load of nuclear fuel, cooling water for the operation of those 2 nuclear units and the completion of the electricity transmission lines necessary for the connection to the National Energetic System and the evacuation of the electricity produced by those two nuclear units.

On 20 September 2023, the Canadian Minister of Energy and Natural Resources, in collaboration with the Romanian Minister of Energy, jointly declared Canada's commitment to provide 3 billion Canadian dollars in support for the expansion of Units 3 and 4 at the Cernavodă NPP project.

#### 4.2. Refurbishment Project of Unit 1 Cernavodă NPP

As at 7 March 2023, Nuclearelectrica announced selection of Candu Energy Inc., a member of the SNC-Lavalin Group (TSX: SNC), to carry out engineering services for the refurbishment and design activities needed for the acquisition of tools and components that require a long cycle of manufacturing on a complex and lengthy design for the CANDU reactor of Unit 1 of Cernavodă. Under the two-year agreement, with an amount of approximately CAD 65 million, SNC-Lavalin will perform long-term engineering and front-end engineering services, to prepare the future refurbishment project of Cernavodă NPP's Unit 1.

In October 2023 the acquisition procedure between the company and Candu Energy Inc. and Canadian Commercial Corporation (CCC), was finalised, referring to:

- a) Supply of the reactor's components needed for the retubing process;
- b) Supply of the tooling needed in the retubing process, so that the technical requirements of Unit 1 are achieved;
- c) Engineering/technical aid and support services.

The contract between the above mentioned parties will be signed when all corporate approvals will be met

At the moment, there is an ongoing acquisition procedure for the project management, technical aid and support services, as well as personnel training services for the refurbishment of Unit 1.

#### 4.3. Development of the first small modular reactor (SMR) - RoPower Nuclear S.A.

As at 12 May 2023, SN Nuclearelectrica SA (SNN) and the Politehnica University of Bucharest announced launching the first NuScale Energy Exploration Center (E2 Center), which hosts the control room simulator for the plant equipped with VOYGRTM NuScale small modular reactors. The launch of the E2 Center in the Faculty of Energy of Politehnica University of Bucharest is a first of its kind across Europe, and reconfirms the leadership position of Romanian in nuclear energy industry and workforce development.

On 20 May 2023, the United States of America and public and private multinational partners (from the USA, Japan, the Republic of Korea and the United Arab Emirates) announced their intention to finance the Small Modular Reactor (SMR) Project in Romania with up to USD 275 millions.

Furthermore, the US Export-Import Bank (EXIM) and the US International Development Finance Corporation (DFC) issued Letters of Interest for tentative provision of a financial support of up to USD 3 billion and, respectively, USD 1 billion for development of SMR project.

Through the current report dated 29 September 2023, SNN and NuScale Power announced the approval by the National Commission for Nuclear Activities Control (CNCAN) of the Licensing Basis Document (LBD) for the NuScale nuclear power plant, equipped with small modular reactors (SMR). Following a complex evaluation, CNCAN issued the official letter of approval in August 2023, attesting to the compliance of the Licensing Basis Document with national regulatory requirements.

The Licensing Basis Document allows the transition to the next stages of the project, because it establishes the basis for the initiation of the second phase of the design and engineering study (FEED). The approval of the Licensing Basis Document by CNCAN provides a licensing plan for the fulfilment of the critical phases of the project - location, construction, commissioning and operation.

#### 4.4 Project for the tritium removal facility - CTRF

The Detrition Facility Project ("CTRF") is part of SNN's portfolio of initiatives aimed at the consistent implementation of the Company's general policy, namely the concern for maintaining nuclear security at the highest standards and improving environmental performance. The CTRF installation captures the tritium from the heavy water used in the nuclear-electric power plant from Cernavodă NPP, which will lead to an improvement in operational performance, economic-financial efficiency and increased protection of the population, staff and the environment, in full accordance with the ESG objectives of Nuclearelectrica and of Europe.

The CTRF technology is developed by the National Research-Development Institute for Cryogenic and Isotopic Technologies - ICSI Rm. Vâlcea; this will be the third detrition facility in the world and the first in Europe and will give Romania the opportunity to become a European center for the production and export of tritium - the candidate fuel for future fusion reactors. The project is based on an implementation strategy, updated by SNN in 2018, based on the Feasibility Study, approved under Resolution no. 9/22.08.2018 of the Extraordinary General Meeting of Shareholders.

Through the current report published on 28 June 2023, the Company informs about the signing of the engineering, procurement and construction (EPC) contract for the completion of the first detrition facility in Europe at Cernavodă NPP, between Korea Hydro & Nuclear Power (KHNP) and the Company.

By Decision no. 5/05.07.2023 of the Ordinary General Meeting of SNN Shareholders, the modification of the Implementation Strategy of the "Cernavodă NPP Detrition Facility" Investment Project was approved as a result of the update of the investment value.

The signed EPC contract has a completion timeline of 50 months with the following milestones:

- Authorisation obtaining and start of the construction/assembly work 2024
- Acceptance of the execution details 2025
- Commissioning the installation 2026
- Trial run and transfer to operation 2027

#### 4.5. Fabrica de Prelucrare a Concentratelor de Uraniu ("FPCU") Feldioara - SNN Subsidiary

Between January and March 2023, Feldioara Subsidiary became fully operational with a view to developing the integrated nuclear fuel cycle; in this regard, all the necessary steps were taken to authorize the production process and prepare the plants to commence processing. As the same time with Feldioara Subsidiary becoming fully operational, a subsequent contract was signed with the qualified supplier Kazatomprom in order to ensure the necessary technological resources for production of uranium dioxide (UO2). During the same period, all the necessary steps were taken to transport the uranium technical concentrate and to deliver of the contracted quantities.

The Resolution no. 4/26.04.2023 of the Extraordinary General Meeting of Shareholders ("EGMS") approved the transfer of the license for concession of the Tulgheş – Grintieş exploitation activity (Exploitation License no. 479/1999) from SNN to Fabrica de Prelucrare a Concentratelor de Uraniu – Feldioara S.R.L.

Through the current report published on 28 June 2023 SNN and Korea Hydro & Nuclear Power (KHNP) announce the signing of a Memorandum of Understanding (MoU) for cooperation in the field of nuclear fuel, as part of the strategy of both parties to further develop fuel processing and ensure the resilience of nuclear fuel production capacities, in view of the long-term operation of the current nuclear power plants, but also of the future energy production capacities, developed through the current investment projects.

The memorandum of understanding records the intention of the parties to collaborate for the study, planning and development of the technical processing activities of uranium concentrates, in order to qualify SNN as a potential supplier of sinterable UO2 powder by KHNP, as well as for exploring the possibilities of collaboration in the field of manufacturing nuclear fuel bundles.

#### 4.6. Litigation started by Cernavodă NPP Union and employees of Cernavodă NPP Branch

File no. 5802/118/2017 was filed with Constanta Tribunal against CNN, claiming unpaid salary rights representing the equivalent value of the professional risk bonus (dangerous conditions), the claimant being Cernavodă NPP Union on behalf of 757 employees of Cernavodă NPP Branch.

The company finds the claims unfounded, all due salary rights having been paid to employees, including the amounts subject to this litigation. The court rejected the plea of *res judicata* invoked by SNN as unfounded and admitted the documentary and accounting expert report evidence, temporarily extending the technical expert report for the classification into radiological risk areas pending submission of documents by SNN. The production of evidence, i.e., performance of a new accounting expert review. In order to carry out the accounting expert review, the court set a hearing on 10 November 2023.

## 4.7. Litigation started by the S.N. Nuclearelectrica S.A. regarding certain measures to regulate the facilities granted to pensioners in the electricity sector

S.N. Nuclearelectrica S.A. started the action to suspend enforcement, cancellation of Government Decision no. 1041/2003 regarding certain measures to regulate the facilities granted to pensioners in the electricity sector, as amended and of Government Decision no. 1461/2003 for the amendment and completion of Government Decision no. 1041/2003 regarding certain measures to regulate the facilities granted to pensioners in the electricity sector and the obligation to pay material damages in the amount of RON 820,422.44, resulting from the application in the past three years of Government Decision no. 1041/2003 and Government Decision no. 1461/2003 – File no. 4419/2/2021 registered with the Bucharest Court of Appeal, 8th Administrative and Fiscal Disputes Section.

The court dismissed the request for stay, and SNN lodged a higher appeal against this solution. The Case no. 4419/2/2021 was settled on 7 December 2022 by dismissing the higher appeal as unfounded.

The court dismissed the action as unfounded, and SNN lodged a higher appeal on the substance of the case against the Sentence no. 887/2022. The higher appeal case was registered under no. 1720/1/2022. The court dismissed the head of claims concerning the setting aside of the Government Decision no. 1041/2003 as devoid of object, and upheld SNN's appeal and referred the case back for retrial as to the head of claims concerning the ordering of the respondent, the Government of Romania, to grant indemnities. The file was re-registered with the Bucharest Court of Appeal. The following hearing is due on 29 November 2023.

## 4.8. Dispute concerning the insolvency of Compania Nationala a Uraniului; application for registration of a claim of SNN

As at 3 February 2022, in the case no. 23089/3/2021, SNN filed for admission of its claim of RON 7,811,840.50, VAT included (RON 6,564,571.84 without the VAT), as a claim conditional upon the failure to perform, before 31 March 2022, the remaining deliveries under the contract no. 914/19.07.2018, and a claim secured with the obligation to refund a share of the advance paid by SNN for the delivery of Uranium in sinterable powder of UO2.

As at 8 November 2022, under the report of the court appointed administrator dated 4 November 2022 and the updated preliminary list submitted on 8 November 2022, the claim of SNN was entered as a plain secured claim, and not as a conditional claim, as it had been initially entered. During the hearing 07 November 2023, the involved judge set a new hearing on 30 April 2024, for continuation of the proceedings, preparation of the final list and submission of a reorganization plan.

#### 4.9. Dispute concerning the request for public information about the Doicești Site Survey

As at 15 September 2022, the case no. 2873/120/2022 was registered with Dâmboviţa Tribunal, whereby the claimant Ion Dragos Popescu asked, pursuant to Law no. 544/2001 on the free access to information of public interest, that SNN would be ordered to serve him the site survey for the small modular reactors (SMR) of Doiceşti, County of Dâmboviţa county, and to indicate the alternative sites surveys and the reasons for choosing the site of Doiceşti.

SNN filed a statement of defence explaining the final site decision would be made based on the underlying surveys to be prepared, that there was no pending procedure for assessment and issue of the environmental agreement, and that the survey contained no environmental information due to be disclosed under the Aarhus Convention, and further that the disclosure of the requested information could hinder the business and the business commercial interests of the Company, as this was technical information concerning the modular reactor technology received under a non-disclosure clause and the non-disclosure agreements concluded by SNN with the providers of this information.

The court which heard the substance of the case dismissed the statement of claims filed by the claimant Popescu Dragos Ion as unfounded. The sentence was appealed and the next hearing at the Ploiesti Court of Appeal is 21 November 2023.

#### 4.10. Changes in the management of the company - Directors

Under the Current Report published on 3 May 2023, the Company informed on the appointment, under a Resolution of the Board of Directors, of Mr. Dan Niculaie-Faranga to the position of Chief Financial Officer, with a 4-month term of office, starting on 3 May 2023.

On 29 September 2023, the Company informed that starting from 01 October 2023 the Individual Employment Agreement of Mrs. Melania Amuza, as Deputy CEO Business and Development Affairs of SN Nuclearelectrica SA, ceases as a result of the appointment of Mrs. Melania Amuza as General Director of RoPower Nuclear SA, the project company for the development of the Small Modular Reactors (SMR) Project, owned by Nuclearelectrica and Nova Power & Gas (part of the E-Infra Group).

#### 4.11. Changes in the management of the Company - Board of Directors

Under the OGMS Resolution no. 1/15.02.2023 of the Ordinary General Meeting of SNN's Shareholders, four non-executive members of the Board of Directors were appointed effective 15 February 2023, for

a 4-year term of office, in keeping with the provisions of Article 29(1) of the Government Emergency Ordinance no. 109/2011, namely Mr. Vulpescu Remus, Mr. Chirlesan Dumitru, Mr. Niculescu George Sergiu and Mrs. Grajdan Vasilica. The form of the mandate contract and the fixed allowance of the new non-executive directors were also approved.

Under the Current Report dated 29 March 2023, the Company informed the shareholders and investors about the notice given to Mr. George-Sergiu Niculescu as to the termination de jure of his mandate as a member of the Board of Directors, effective 29 March 2023. Termination *de jure* of his office stems from the provisions of Article 13.1(g) of his contract of mandate concluded with SNN, stipulating that the contract comes to an end *de jure* when a case of incompatibility occurs or a prohibition provided by law becomes applicable. Decision no. 5/05.07.2023 of the Ordinary General Meeting of SNN Shareholders approved the initiation of the selection procedure for a non-executive member in the Board of Directors of Societatea Nationala Nuclearelectrica S.A., which is a vacancy in accordance with the provisions of the Government Emergency Ordinance no. 109/2011, as subsequently amended and supplemented.

By Resolution no. 5/05.07.2023 of the Ordinary General Meeting of Shareholders of SNN, the following were approved: the financial and non-financial performance indicators for the executive and non-executive directors, the form of the addendum to their mandate agreement, as well as the general limits of the remuneration of the Directors of the Company with a mandate agreement.

#### 4.12. Relocation of SNN's registered office

Under the EGMS Resolution no. 2/15.02.2023 of the Ordinary General Meeting of SNN's Shareholders, the shareholders approved relocation of the company's registered office to the address of Bucharest, sector 1, Bd. Iancu de Hunedoara nr. 48, ground floor and 4th, 5th and 13th floor, as well as the updating the Articles of Incorporation of SNN with the new registered office.

#### 4.13. Memorandum of Understanding with Emirates Nuclear Energy Corporation (ENEC)

Under the Current Report published on 20 March 2023, the Company announced the signing of a Memorandum of Understanding (MoU) for bilateral cooperation in the nuclear energy sector, to support the development of this critical energy source in addressing the energy security and climate change challenges.

The objective of the Memorandum of Understanding is to provide both parties with a favourable framework for a potential collaboration in development and expansion of nuclear energy program in the UAE and in Romania, as well as in Central and Eastern Europe.

#### 4.14. Approval of distribution of the net profit of financial year 2022

The Resolution no. 3/26.04.2023 of the Ordinary General Meeting of Shareholders ("OGMS") approved distribution of the net profit of the financial year 2022 by applications, the total gross amount of the dividends of RON 1,283,215,656, the amount of the gross dividend per share of RON 4.25407469, the dividend payment date, *i.e.*, 23 June 2023, and the payment methods, in accordance with the note presented to the shareholders for this item on the agenda (item 5 of the OGMS agenda of 26 April 2023).

Through the current Report published on 22 May 2023, the Company informed its shareholders that based on Decision no. 3 of the Ordinary General Meeting of Shareholders dated 26.04.2023, SNN paid

the dividends related to the financial year 2022 through Depozitarul Central S.A. and CEC Bank, the selected payment agent.

## 4.15. Development of nuclear medicine in Europe under an innovative agreement with BWXT Medical Ltd, part of BWX Technologies

The agreement between Nuclear electrica and BWXT Medical Ltd. will explore the possibility of further cooperation in nuclear medicine in Europe, for production of medical isotopes. The initial purpose of the agreement is to conduct a specific market analysis, which is to inform the next collaboration phases. BWXT Medical Ltd., part of BWX Technologies, Inc., has more than 40 years of experience in nuclear medicine, *i.e.*, in production of medical isotopes, pharmaceutical products and medical devices, strengthening cooperation to further develop new treatments in the field of nuclear medicine through the development, manufacture and supply of diagnostic imaging and radiotherapy treatment products.

#### 4.16. Planned shutdown of Unit 2 within Cernavodă NPP

Starting on 7 May 2023, Cernavodă NPP Unit 2 entered the planned shutdown program, which takes place every two years at each unit, and synchronization with the National Energy System was completed on 15 June 2023.

During the planned shutdown, activities from the following programs were carried out:

- Preventive maintenance program;
- Corrective maintenance program;
- Inspection program;
- Mandatory testing program during the planned shutdowns;
- Program for implementing project changes.

The works were carried out in safe conditions for the plant staff, the public and the environment, according to the approved procedures used at Cernavodă NPP.

#### 4.17. The inclusion of SNN in the MSCI Frontier Markets and MSCI Romania indices

Through the current Report published on 31 May 2023, the Company announces that it was included in the MSCI Frontier Markets and MSCI Romania indices starting on 1 June 2023.

Nuclearelectrica was previously included, on 19 August 2022, in the large cap category of FTSE Russell, being one of the two Romanian companies initially included in the emerging market indices of FTSE Russell in 2020.

## 4.18. Signing of the Memorandum of Understanding with Energocom for the development of long-term cooperation in the energy sector

On 18 July 2023, SNN and Energocom, the energy supplier of the Republic of Moldova, announced the signing of a Memorandum of Understanding (MoU) to develop long-term cooperation in the energy sector and to achieve common strategic objectives.

The objective of the Memorandum of Understanding is to explore the options for ensuring the delivery of energy from the future production of Nuclearelectrica from the new capacities that are about to enter commercial operation, mainly units 3 and 4 of the Cernavodă nuclear power plant, as well as to support the development of capacities and the human resources skills in the field of nuclear energy.

#### 4.19. Automatic disconnection of Cernavodă NPP Unit 1 from SEN

On 8 August 2023, Unit 1 of Cernavodă NPP was automatically disconnected from the National Energy System due to a malfunction in the classical part of the unit, without impact on the nuclear part.

On 10 August 2023, the Company announces that Unit 1 of Cernavodă NPP has been resynchronized to the National Energy System.

The automatic disconnection of Unit 1 as well as the remedial works have no impact on the nuclear safety of the reactor, the unit's personnel, the population or the environment.

## 4.20. Signing of the Letter of Intent with the Three Seas Initiative Investment Fund to explore the possibility of collaboration in the renewable energy generation sector in Romania

In its current report dated 7 September 2023, the company announces that it has signed a Letter of Intent with the Three Seas Initiative Investment Fund to explore the possibility of collaboration in the renewable energy generation sector in Romania, in order to achieve common strategic objectives.

The company, which currently generates 33% of Romania's clean energy and has strategic investment projects that will increase its contribution to the generation of clean energy to approximately 66% in 2030, is looking for opportunities to further develop complementary projects, which ensure an even greater increase in its contribution to the production of clean energy in Romania.

The investment fund of the Three Seas Initiative (3SIIIF or the Fund) is interested in further identifying and partnering in opportunities that support the energy transition and energy security in the 3 Seas Region.

## 4.21. International collaboration between SNN and Laurentis Energy Partners to advance the production of medical isotopes in Romania

On 28 September 2023, a Memorandum of Understanding was signed between the Company and Laurentis Energy Partners, which allows collaboration on opportunities in several areas, including the production of medicinal isotopes.

The memorandum was concluded in the context of the over 55-year partnership between Romania and Canada in the field of nuclear energy and the announcement made by Jonathan Wilkinson, Canada's Minister of Energy and Natural Resources, to support the development of Units 3 and 4 of Cernavodă NPP by 3 billion Canadian dollars, aiming at achieving energy security with clean energy.

## 4.22. Positive revision of the rating granted by Fitch

On November 8, Societatea Nationala Nuclearelectrica S.A. ("SNN") informs shareholders and investors that the Fitch rating agency has confirmed the BBB- rating, with a stable outlook, granted to SN Nuclearelectrica SA.

#### 4.23. Major litigations

The status of major litigations (in excess of RON 500 thousand) and of litigations whose value was not assessed, pending as at 30 September 2023 is presented in **Appendix 4.** 

#### S.N. Nuclearelectrica S.A.

Quarterly report of the Board of Directors for the period 1 January - 30 September 2023 (All amounts are expressed in RON, unless otherwise expressly provided for.)

#### 4.24. Other information

The quarterly report of the Board of Directors for the period 1 January -30 September 2023 is accompanied by the Interim Individual Financial Statements as at and for the 9-month period ended 30 September 2023, which are published on the internet page of S.N. Nuclearelectrica S.A. (www.nuclearelectrica.ro), Relations with investors section.

#### 5. MAIN ECONOMIC AND FINANCIAL RATIOS as at 30 September 2023

SNN performances are found as well, in the fulfilment of the main economic and financial ratios, as follows:

Name of ratio	Calculation method	M.U.	Amount 30.09.2023*)
1. Ratio of current liquidity	Current assets/	х	7.41
1. Ratio of current inquitity	Current liabilities	Α	7.41
2. Indebtedness ratio			
2.1. Indebtedness ratio (1)	Borrowed capital/	%	0.2%
2.1. Indeptedness ratio (1)	Equity x 100	/0	0.270
2.1. Indebtedness ratio (2)	Borrowed capital/	%	0.2%
2.1. Hideotedness ratio (2)	Capital employed x 100	/0	0.270
	Average customer		
3. Debt turnover ratio - customers	balance/	days	24
	Turnover x 180		
4. Assets turnover ratio**)	Turnover/		1.18
4. Assets turnover ratio	Fixed assets	X	1.18

<sup>\*)</sup> According to the Individual Interim Financial Statements as of and for the 9-month period ended 30 September 2023.

#### 6. ACTIVITY OF EXECUTIVES WITH MANDATE AGREEMENT

By Resolution of the Board of Directors no. 121/25.05.2023 the Administration Plan of SNN for the period 2023 - 2027 was approved in its entirety, including the management component.

In the period January - September 2023, the performance of the mandate agreements of the directors was in accordance with the management plan, the component included in the administration plan.

On 30 September 2023, the directors with whom SNN concluded mandate agreements are: Mr. Cosmin Ghita – CEO, and Mr. Dan Niculaie-Faranga – CFO. The degree of fulfilment of the global performance indicator of directors with a mandate agreement on 30 September 2023 is 100%.

## 7. DEGREE OF ACHIEVEMENT OF THE KEY PERFORMANCE RATIOS

By its Resolution no. 64/17.03.2023, the Board of Directors approved the administration component of the Management Plan of SNN for the period 2023 - 2027. By Resolution of the Board of Directors no. 121/25.05.2023 the Administration Plan of SNN for the period 2023 - 2027 was approved in its entirety, including the management component.

By Resolution no. 5/05.07.2023 of the Ordinary General Meeting of Shareholders of SNN, the following were approved: financial and non-financial performance indicators for the executive director and non-executive directors and the form of the addendum their mandate agreement.

The Mandate Agreements and addenda to mandate agreements signed by SNN with the members of the Board of Directors provide key performance ratios, as well as the annual targets for the period 2023-2026. According to the provisions of the mandate agreements (item 5 in Appendix 3 to the mandate agreements), the aggregate percentage of achievement of key performance ratios shall be determined for each quarter.

<sup>\*\*)</sup> Assets turnover ratio is calculated by the annualization of the quarterly turnover (360 days/270 days).

On 30 September 2023, the members of the	he Board of Directors	of SNN are:
--	-----------------------	-------------

Item no.	First name and last name	Mandate expiry
1.	Teodor Minodor Chirica <sup>1)</sup>	29.09.2026
2.	Cosmin Ghita <sup>2)</sup>	29.09.2026
3.	Elena Popescu	29.09.2026
4.	Dumitru Remus Vulpescu	15.02.2027
5.	Chirlesan Dumitru	15.02.2027
6.	Grajdan Vasilica	15.02.2027

<sup>1)</sup> Chairman of the Board of Directors of SNN based on Resolution no. 131/23.07.2020 of the Board of Directors:

The computation of the aggregate degree of achievement of the key performance ratios for Q3 2023 is presented in **Appendix 5.** The degree of achievement of key performance ratios is determined by the aggregate degree of achievement of key performance ratios, by determining the percentage achieved for the weighted values of each ratio. The degree of achievement of key performance ratios is limited by the 100% threshold, provided that achievements exceed the targets proposed in the mandate agreement.

Thus, the key performance ratios were fulfilled in a proportion of 100% for the third quarter of 2023 in aggregate (therefore above the threshold of 75%), for each member of the Board of Directors:

Mandate agreement	Degree of completion Q3 2023 (aggregate)
Board of Directors	100%

Teodor Minodor Chirica, Chairman of the Board of Directors

Endorsed, Dan Niculaie-Faranga, Chief Financial Officer

<sup>2)</sup> Also acts as the Chief Executive Officer of SNN;
