

HALF - YEAR REPORT

OF

THE BOARD OF DIRECTORS

S.N. NUCLEARELECTRICA S.A.

(“SNN”)

First semester of 2019

Report date: August 2019

CONTENTS

1. BASIS OF REPORT	3
2. FINANCIAL STATEMENT ANALYSIS	3
2.1. Financial position statement as of June 30, 2019	3
2.2. Profit and loss account for the 6-month period that ended on June 30, 2019	4
2.3. The execution of the Revenues and Expenses Budget as of June 30, 2019	5
3. OPERATIONAL ACTIVITIES	5
3.1. Electricity production	5
3.2. Electricity sales	6
3.3. Expenses in the energy market	10
3.4. The investment program on June 30, 2019	11
3.5. Activity of the Cernavoda NPP Branch	13
3.6. Activity of the Pitesti NFF Branch	17
4. OTHER SIGNIFICANT ASPECTS	17
4.1. The Project for Units 3 and 4 Cernavoda NPP	17
4.2. The litigation initiated by the Union of Cernavoda NPP and employees of the Cernavoda NPP Branch	18
4.3. The litigation initiated by the Free Union Energetica Nucleara '90 and employees of the Cernavoda NPP Branch	18
4.4. The litigation initiated by S.N. Nuclearelectrica S.A. against ArcelorMittal Galati S.A.	19
4.5. Amendment of the Articles of Incorporation of the Company	19
4.6. Activities approved for the increase of the share capital	19
4.7. Appraisal mission lead by the World Association of Nuclear Operators "WANO"	19
4.8. Changes in the management of the Company	20
4.9. Approval of regulated prices and quantities for the period March 1, 2019 - December 31, 2019	20
4.10. Signing the Memorandum of SNN – NuScale Power	20
4.11. Approving the distribution of the net profit of financial year 2018	20
4.12. Planned outage of Unit 2 CNE Cernavoda	20
4.13. Major litigations	21
4.14. Other information	21
4. MAIN ECONOMIC FINANCIAL INDICATORS ON 30.06.2019	21
5. ACHIEVEMENT DEGREE OF THE KEY PERFORMANCE INDICATORS	22
Annex 1 - Financial position statement as of June 30, 2019	24
Annex 2 - Profit and loss account for the 6-month period ended on June 30, 2019	25
Annex 3 - The execution of the Revenues and Expenses Budget as of June 30, 2019	26
Annex 4 – Major litigations in progress on June 30, 2019 (over 500 thousand RON), including the non-monetary evaluated ones	27
Annex 5 – The accomplishment degree of the key performance indicators as at 31.03.2019 – Board of Directors	43
Annex 6 – The accomplishment degree of the key performance indicators as at 30.06.2019 – Board of Directors	44

In case of any differences between the Romanian and English version, the Romanian version prevails.

1. BASIS OF REPORT

The half-year report of the Board of Directors for the period January 1 - June 30, 2019 is drafted in virtue of the provisions of art. 55 of Government Emergency Ordinance no. 109/2011 regarding the corporate governance of public companies, as further amended and supplemented (“GEO no. 109/2011”).

2. FINANCIAL STATEMENT ANALYSIS

The information and the Revised Simplified Individual Interim Financial Statements on the date and for the period of 6 months that ended on June 30, 2019 presented in this report are revised by the financial auditor of S.N. Nuclearelectrica S.A. and were drafted according to the Order of the Ministry of Public Finance no. 2844/2016 for approving the Accounting Regulations according to the International Financial Reporting Standards (“IFRS”), based on the International Accounting Standard 34 - “Interim financial reporting” passed by the European Union.

The submitted indicators are in lei (RON) unless otherwise stated.

2.1. Financial position statement as of June 30, 2019

The financial position on June 30, 2019 is presented in **Annex 1**.

Indicator [thousand RON]	June 30, 2019 (reviewed)	December 31, 2018 (audited)	Variation
Non-current assets	6,489,986	6,671,436	(2.7%)
Current assets	2,160,627	2,194,769	(1.6%)
Total assets	8,650,613	8,866,205	(2.4%)
Long-term debts	1,027,182	1,122,870	(8.5%)
Current liabilities	532,553	564,204	(5.6%)
Total liabilities	1,559,735	1,687,074	(7.5%)
Equity	7,090,878	7,179,131	(1.2%)
Total equities and liabilities	8,650,613	8,866,205	(2.4%)

Non-current assets registered a slight drop of 2.7% compared to the level registered on December 31, 2018, especially due to the drop of the net value of the tangible assets by acknowledging the amortization for the first semester of 2019. The impact of the period’s depreciation was partially compensated by the investments performed for Units 1 and 2 Cernavoda NPP.

Current assets recorded a slight decrease of 1.6% compared to December 31, 2018, mainly due to the decrease of cash liquidities (cash, cash equivalents and bank deposits) and commercial receivables and other receivables.

Long-term debts decreased by 8,5%, as compared to the values recorded on December 31, 2018. The decrease is mainly caused by the decrease of the long term portion of the external credits contracted from Societe Generale and EURATOM for building and starting up Unit 2 Cernavoda NPP, following

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

the reclassification of the outstanding installments in the short-term portion, gradually with the maturity of the credits.

Current debts decreased by 5.6% compared to the values registered on December 31, 2018, based on the decrease of the payable profit tax, partially compensated by the increase of the other current debt elements, mainly commercial debts and other debts and advance revenues.

2.2. Profit and loss account for the 6-month period that ended on June 30, 2019

During the period of 6 months that ended on June 30, 2019, SNN recorded a net profit of 290,661 thousand lei.

Indicator [thousand RON]	6-month period ended on June 30, 2019 (reviewed)	6-month period ended on June 30, 2018 (reviewed)	Variation
Production (GWh)*	4,919	4,969	(1.0%)
Operating income, out of which:	1,208,559	1,006,687	20.1%
<i>Income from electricity sales**</i>	<i>1,181,738</i>	<i>968,625</i>	<i>22.0%</i>
Operating expenses, minus impairment and depreciation	(569,502)	(519,334)	9.7%
EBITDA	639,057	487,353	31.1%
Impairment and depreciation	(274,872)	(272,099)	1.0%
EBIT	364,185	215,254	69.2%
Net financial result	(4,063)	14,936	n/a
Net corporate tax expense	(69,461)	(47,876)	45.1%
Net profit	290,661	182,314	59.4%

*Electricity produced and delivered by Cernavoda NPP in the National Energy System.

**Including revenues from the sale of thermal energy, insignificant in the total revenues.

The Operational profit (EBITDA) increased by 31.1% as compared to the same period of the previous year, mainly following the increase of operational revenues by 20.1%, influenced by the increase by 22% of the revenues from the sale of electricity.

The Operating income increased by 20.1%, influenced by the 22.1% increase in the weighted average price of the electricity sold in the first half-year of 2019 as compared to the weighted average price in the first half-year of 2018, given the sale of a total quantity of electricity over the period January 1 - June 30, 2019 similar to the total quantity sold over the period January 1 - June 30, 2018 (only 1% decrease).

As compared to the same period of the previous year, the quantity of electricity sold on the competition market of bilateral contracts increased by 9%, and benefited from an increase of the average sale price on this market by 18% (price without Tg), while the electricity quantity sold on the spot market (PZU) decreased by 35%, whereas an average sale price on this market higher by 38% (price without Tg) was registered.

Also, in the six-months period that ended on June 30, 2019, the Company sold approximately 0.1% of the energy on the regulated market (the Company did not sell energy on the regulated market in the six-months period that ended on June 30, 2018), at regulated price. For the year 2019, in order to

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

comply with the provisions of the Government Emergency Ordinance no. 114/28.12.2018, ANRE issued Decision no. 326/2019, by which it established a quantity of energy to be sold by SNN on regulated contracts of 1,377 GWh (out of which 6.1 GWh for the period January 1 - June 30, 2019), and for the following years, the sales obligations based on regulated contracts for SNN to be set at a maximum level of 65% of the amount of electricity delivered. Also, ANRE established by said Decision the regulated price that must be used in 2019, i.e. 188.33 RON/MWh, value which does not include the tariff for electric energy transmission service paid to Transelectrica S.A. for the introduction of electricity in the electricity transmission network.

Operating expenses increased by 9.7% over the period January 1 - June 30, 2019, as compared to the same period of the year of 2018. This evolution is mainly determined by the increase of the expenses with the purchased electricity and the slight increase of personnel expenses, partially compensated by the decrease of the repair and maintenance expenses.

Net currency exchange differences negatively influenced the net result, so in the first half-year of 2019, net financial expenses were recorded, while in the same period of the previous year net financial revenues were recorded. The main currencies to which there are exposures are EUR and CAD.

The increase of the **corporate tax expense** diminishes the positive influences of the other elements. This increase was caused by the increase of taxable profit calculated for the first half-year of 2019 compared to that calculated for the same period of the previous year.

The profit and loss account for the period of 6 months ended on June 30, 2019 is presented in **Annex 2**.

2.3. The execution of the Revenues and Expenses Budget as of June 30, 2019

The revenue and expenses budget (“BVC”) of SNN for the year 2019 was approved by the Resolution of the General Assembly of Shareholders no. 6/20.05.2019.

The company is monitored regarding the compliance with the performance indicators, objectives and criteria, respectively the compliance with the salary payroll level, with the revenues and expenses level, the program to reduce the arrears and the outstanding receivables.

The execution of the Revenue and Expenses Budget on June 30, 2019 is presented in **Annex 3** to this report.

As per the analysis of the Budget of Revenues and Expenses execution as of June 30, 2019 (presented in **Annex 3**), a degree of accomplishment of the programmed operating revenues of 99.3% and a decrease of the operating expenses compared to the budgeted level of 12.5% results. The performance level of the total income is 98.9%, higher than the performance level of the total expenses of 87.1%.

3. OPERATIONAL ACTIVITIES

3.1. Electricity production

The gross production of electricity of the two operational units of CNE Cernavoda was 5,367,792 MWh in the first half-year of 2019 (of which 2,388,927 MWh in the second quarter of 2019); from this gross production, the own technological consumption of the Units during operation, and during the

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

outages ensured from own production was 449 thousand MWh in the first half-year of 2019 (of which 212 thousand MWh in the second quarter of 2019).

Thus, the electricity produced and delivered in the National Energy System (“SEN”) was 4,918,714 MWh in the first half-year of 2019, compared to the same period of 2018 (4,969,271 MWh), representing a 1% decrease; in the second quarter of 2019 the quantity of electricity that was produced and delivered in SEN was 2,177,190 MWh, a 3% decrease compared to the level recorded in the second quarter of 2018, of 2,255,289 MWh.

The net electricity production program approved by the Board of Directors for 2019 (February 2019 revision) considered a quantity of 10,228,403 MWh; out of this quantity, for the first half-year of 2019, the production program considered a quantity of 4,790,566 MWh, being implemented in a percentage of 102.7% and for the second quarter of 2019 it considered a quantity of 2,066,616 MWh, being implemented in a percentage of 105.4%.

The installed power usage factor, recorded by each operational unit within CNE Cernavoda during the second quarter of 2019, and cumulated since the start of the commercial usage (Unit 1 on December 2nd, 1996, Unit 2 on November 1st, 2007) until June 30, 2019 was the following:

Cernavoda NPP unit	Cumulated first quarter 2019	April 2019	May 2019	June 2019	Cumulated First semester 2019	Cumulated from the commercial exploitation
Unit 1	96.69%	96.47%	95.96%	94.46%	96.16%	90.66%
Unit 2	99.80%	99.53%	7.63%	73.96%	79.68%	93.94%

The lower value of the factor for using the installed capacity at Unit 2 CNE Cernavoda reflects the influence of the scheduled outage for an actual duration of 850.6 hours, registered as of May 3, 2019, 11:00, completed on June 7, 2019, 21:22. The unplanned extension of the scheduled outage of Unit 2 CNE Cernavoda lasted for 98.4 hours, and the initial planned moment of the re-synchronization was June 3, 2019, 19:00.

3.2. Electricity sales

Within the activity of electricity trading, the Company is obligated to submit letters of bank guarantee to certain contractual partners, according to the provisions stipulated in the electricity sale-purchase contracts. Mainly, these refer to: the contract concluded with C.N. Transelectrica S.A. for electricity transportation (a letter of bank guarantee is not necessary given the status of good payer; the contract provides the situations where the security is mandatory); the agreement concluded with OPCOM S.A. for electricity trading on PZU (Next Day Market) and PI (Intra-daily Market); regulated contracts, concluded with last resort providers, based on ANRE Decision no. 326/2019; contracts concluded on the PCCB – NC platform (centralized market of bilateral electricity contracts – the trading method according to which contracts are awarded by Continuous Negotiation); contracts concluded on the PCSU platform (centralized market for the universal service), plus tender procedure securities; the agreement for PE (balancing market) concluded with C.N. Transelectrica S.A. and the contract concluded with Ciga Energy S.A. for PE representation.

For the purpose of this activity, over the first half-year of 2019, 7 letters of bank guarantee were issued, out of which, for 3 letters of bank guarantee, collateral deposits were set up at the equivalent

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

amount. The cumulated value thereof is of RON 27,889,284, out of which, for RON 20,012,775, collateral deposits have been set up. Over the period January 1 - June 30, 2019, a number of 24 collateral deposits were liquidated related to the letters of bank guarantee amounting to RON 36,967,531, issued in 2018. On June 30, 2019, there are in the balance 42 letters of bank guarantee amounting to RON 127,082,234, out of which, for 32 letters of bank guarantee, there are collateral deposits set up amounting to RON 100,621,998.

The quantities of electricity sold in the first half-year of 2019 and the corresponding incomes, separated by types of sale contracts, are presented in the table below:

Electricity sales (quantities, prices and values) in the first half-year of 2019

Sales by types	Quantities in MWh	% of total sales	Average price [Ron/MWh with Tg included]	Revenues from sales [Ron]
Sales on the regulated market	6,100	0.1%	189.51	1,156,011
Sales on the free market (bilateral contracts and PZU sales), out of which:	5,091,397	99.6%	231.62	1,179,269,082
- Sales on PCCB - LE, PCCB - NC, PCSU, PC - OTC contracts and supply contracts	4,400,917	86.1%	233.66	1,028,300,818
- PZU sales	690,480	13.5%	218.64	150,968,264
PE positive imbalances ^{*)}	14,827	0.3%	165.28	2,450,621
Total sales in the first half-year of 2019	5,112,324	100%	231.38	1,182,875,714

^{*)} NB: RON 104,201 of the value presented represents redistributed revenues resulted from the balancing of the system, based on the application of ANRE Order no. 76/2017 and ANRE Order no. 31/2018.

The electricity quantity sold based on contracts, on the spot market (PZU) and on PE is 5,112,324 MWh, 2.9% more than the sales program, of 4,968,531 MWh (sized on the production estimate, without estimating unplanned outages) and 0.26% less than the electricity quantity sold in the same period of 2018.

The difference between the electricity sold by the Company and the electricity produced and delivered by CNE Cernavoda (194 thousand MWh) is represented by the electricity purchased for the full coverage of the contractual obligations, an electricity quantity that was purchased 56% from the Centralized Markets, 36% from the spot market and the rest from PE.

The revenues obtained from the electricity market related to electricity deliveries in the first half-year of 2019 are 1,182,875,714 lei (out of which 104,201 lei represents redistributed revenues resulted from balancing the system, based on the application of ANRE Order no. 76/2017 and ANRE Order no. 31/2018), 0.16% higher than the budget revenues for the first semester of 2019, and 21.8% higher than the revenues in the same period of the previous year.

According to the sales strategy, 9 contracts for purchase on the Centralized Markets were concluded between August 2018 and April 2019, for a constant power of 145 MWh, with delivery in May 2019, at an average price of 210.93 lei/MWh which partially covered the sale obligations assumed by the contracts whose average weighted price in May 2019 was 216.03 lei/MWh.

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

The average weighted sale price, for the electricity quantities sold (without the regulated market and PE), resulted in the first half-year of 2019, is of RON 231.62/MWh (including T_g). For comparison, the weighted average price of all the transactions performed on the markets on which SNN operated in the first semester of 2019 (PCCB - LE, PCCB - NC, PCSU and PZU), calculated based on the values published by OPCOM in the monthly market reports, is 233.93 lei/MWh. In the first semester of 2018 the average weighted sale price, for the energy quantities sold (without PE) was 189.63 lei/MWh (including T_g).

Following the Government Emergency Ordinance no. 114 / 28.12.2018, amending and supplementing Electricity and natural gas law no. 123/2012, by establishing the supply of electricity under conditions regulated by ANRE for household clients, between March 1st, 2019 and February 28th, 2022 and introducing as an additional obligation of manufacturers to deliver last-instance suppliers, between March 1st, 2019 and February 28th, 2022, the electricity that is necessary for ensuring the consumption of household consumers for which regulated fees are applied, ANRE issued Order no. 10 / February 01, 2019 for approving the Methodology for setting the prices for the electricity sold by the manufacturers based on regulated contracts and the quantities of electricity from the regulated contracts concluded by the manufacturers with last-instance suppliers. ANRE sets for the manufacturers in the indicated period obligations to sell firm quantities of electricity based on regulated contracts. For 2019, the estimated quantity to be attributed to SNN for regulated contracts is 1,377 GWh (out of which 6.1 GWh for the period January 1 - June 30, 2019), and for the following years, the sale obligations based on the regulated contracts attributed to SNN shall be set to a maximum level of 65% of the delivered electricity quantity. Also, ANRE set by annual decision the regulated price that must be charged during the current year; the regulated price is set based on economically justified costs, i.e. cost plus profit margin, using a methodology approved by ANRE.

In the first half-year of 2019, the energy quantities sold based on contracts concluded on the regulated market were compliant with ANRE Decision no. 326/25.02.2019. ANRE established a regulated price for SNN of RON 188.33 /MWh (without T_g).

The sold electricity quantities on the competitive market of bilateral contracts represented in the first half-year of 2019 a percentage rate of 86% out of the total volume of the sold energy. The average sale price on bilateral contracts in the first half-year of 2019 was RON 233.66 /MWh (with T_g), recording an increase of 18.2% as compared to the average price recorded in the first half-year of 2018, of RON 197.68 /MWh (with T_g); given the fact that the values of the electric power input transport fee in the T_g network were the following: RON 1.05 /MWh for the period July 1, 2017 - June 30, 2018, according to ANRE Order no. 48/22.06.2017 and RON 1.18 /MWh for the period July 1, 2018 - June 30, 2019, according to ANRE Order no. 108/20.06.2018.

On the spot market (PZU), during the first half-year of 2019, a quantity of electricity representing 13.5% of the total sale volumes was sold, compared to the percentage share of 20.6% recorded in the same period of 2018. The energy average selling price on the spot market (PZU) achieved by SNN in the 1st half-year of 2019 was 218.64 lei/MWh (with T_g included), compared to 158.73 lei/MWh (with T_g included) recorded during the same period of 2018.

In the first semester of 2019, SNN implemented 195 energy sale contracts, as follows:

- 4 regulated contracts;
- 110 contracts concluded on PCCB - LE;
- 65 contracts concluded on PCCB - NC;

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

- 13 contracts concluded on PCSU;
- one transaction concluded on PC - OTC;
- 2 supply contracts for 2 end users.

No contracts were terminated and no significant delays were notified compared to the due payment terms provided in the contracts during the first half-year of 2019. In all the cases in which there have been delays, the Company sent notifications and charged penalties according to the contractual provisions.

The quantities of energy sold in Q2 2019 and the corresponding incomes, separated on types of sale contracts, are presented in the table below:

Electricity sales (quantities, prices and values) during the second quarter of 2019

Sales by types	Quantities in MWh	% of total sales	Average price [Ron/MWh with Tg included]	Revenues from sales [Ron]
Sales on the regulated market	3,000	0.1%	189.51	568,530
Sales on the free market (bilateral contracts and PZU sales), out of which:	2,351,305	99.5%	219.17	515,340,627
- Sales on PCCB - LE, PCCB - NC, PCSU, PC - OTC contracts and supply contracts	1,927,959	81.6%	224.08	432,026,210
- PZU sales	423,346	17.9%	196.80	83,314,417
PE positive imbalances ^{*)}	9,100	0.4%	142.71	1,298,640
Total sales in the second quarter of 2019	2,363,405	100%	218.84	517,207,798

^{*) NB: RON 86,453 of the value presented represents redistributed revenues resulted from the balancing of the system, based on the application of ANRE Order no. 76/2017 and ANRE Order no. 31/2018.}

The electricity quantity sold based on contracts, on the spot market (PZU) and on PE is 2,363,405 MWh, 5.7% more than the sales program, of 2,236,653 MWh (sized on the production estimate, without estimating unplanned outages) and by 0.13% higher than the electricity quantity sold in the second quarter of 2018.

The difference between the electricity sold by the Company and the electricity produced and delivered by CNE Cernavoda (186 thousand MWh) is represented by the electricity purchased for the full coverage of the contractual obligations, an electricity quantity that was purchased 58% from the Centralized Markets, 37% from the spot market and the rest from PE.

The revenues obtained from the electricity market related to electricity deliveries in the second quarter of 2019 are 517,207,798 lei (out of which 86,453 lei represents redistributed revenues resulted from balancing the system, based on the application of ANRE Order no. 76/2017 and ANRE Order no. 31/2018), 0.17% higher than the budget revenues for the second quarter of 2019, and 20.6% higher than the same period of the previous year.

The average weighted sale price, for the electricity quantities sold (without the regulated market and PE), resulted in the second quarter of 2019, is of RON 219.17/MWh (including Tg). In the second quarter of 2018 the average weighted sale price, for the energy quantities sold (without PE) was 181.84 lei/MWh (including Tg).

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

The sold electricity quantities on the competitive market of bilateral contracts represented in the second quarter of 2019 a percentage rate of 81.6% out of the total volume of the sold energy. The average sale price on bilateral contracts in the second quarter of 2019 was 224.08 lei/MWh (with T_g included), registering an increase of 18% compared to the average price registered in the second quarter of 2018, of 189.77 lei/MWh (T_g included), given that T_g in the second quarter of 2018 was lower by 0.13 lei/MWh.

On the spot market (PZU), over the second quarter of 2019, a quantity of electricity representing 17.9% of the total sale volumes was sold, as compared to the percentage share of 24.4% recorded over the second quarter of 2018. The energy average selling price on the spot market (PZU) achieved by SNN in the second quarter of 2019 was 196.8 lei/MWh (with T_g included), compared to 157.48 lei/MWh (with T_g included) recorded during the same period of 2018 (PZU and PI).

In the second quarter of 2019, SNN implemented 125 energy sale contracts, as follows:

- 4 regulated contracts;
- 77 contracts concluded on PCCB - LE;
- 32 contracts concluded on PCCB - NC;
- 10 contracts concluded on PCSU;
- 2 supply contracts for 2 end users.

3.3. Expenses in the energy market

In the first half-year of 2019, the total value of the expenses on the electric power market, incurred by SNN, is of RON 48,632,644, out of which RON 7,014,594 represent expenses on the balancing market (PE), RON 5,803,810 represent T_g (the regulated tariff paid to CN Transelectrica SA for the injection of the electric power produced by Cernavoda NPP in the electric power transport network), RON 8,209 represent the expenses consisting in the equivalent value of the green certificates required to be purchased for the supplied electric power, RON 417,618 represent the tariffs paid to OPCOM SA for the sale and purchase transactions carried out on the platforms managed by OPCOM S.A.

In the first half-year of 2019 the expenses with the purchase of electricity from the Centralized Markets were 22,755,240 lei – for 107,880 MWh, and those from the spot market (PZU and PI) were 12,431,922 lei – for 68,755 MWh. The expenses with electricity purchase (Centralized Markets and spot market) amounted to 35,187,162 2017 lei (first half-year of 2018: 20,878,364 lei), for the purpose of ensuring the full compliance with the electricity delivery contractual obligations during the planned outage (including the unplanned outage, following the extension of the planned outage) of Unit 2 CNE Cernavoda; the purchased quantity of electricity was 176,635 MWh (first half-year of 2018: 110,415 MWh), at an average price of 199.21 lei/MWh (first half-year of 2018: RON 189.09/MWh).

The PE expenses in the first half-year of 2019 were 7,014,594 lei, and the purchased electricity quantity was 16,975 MWh (first half-year of 2018: RON 11,069,836, with the purchased quantity of electric power amounting to 45,666 MWh). This amount represents the equivalent value of the energy received from PE for compensating the negative unbalance, which occurred because of the differences between the energy quantities that were actually delivered and the quantities notified on the market according to the daily estimates for each hourly interval, and the value of the unbalance from notification, the penalties for the partial delivery of the balancing energy and redistributed costs resulted from the system balancing, based on ANRE Order no. 76/2017 and ANRE Order no. 31/2018.

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

In the second half-year of 2019, the total value of the expenses on the electric power market, incurred by SNN, is of RON 39,543,003, out of which RON 3,665,036 represent expenses on the balancing market (PE), RON 2,568,963 represent Tg (the regulated tariff paid to CN Transelectrica SA for the injection of the electric power produced by Cernavoda NPP in the electric power transport network), RON 4,104 represent the expenses consisting in the equivalent value of the green certificates required to be purchased for the supplied electric power, RON 212,456 represent the tariffs paid to OPCOM SA for the sale and purchase transactions carried out on the platforms managed by OPCOM S.A.

In the second quarter of 2019 the expenses with the purchase of electricity from the Centralized Markets were 22,755,240 lei – for 107,880 MWh, and those from the spot market (PZU and PI) were 12,431,922 lei – for 68,755 MWh. The expenses with electricity purchase (Centralized Markets and spot market) amounted to 35,187,162 lei (second quarter of 2018: 17,866,753 lei), for the purpose of ensuring the full compliance with the electricity delivery contractual obligations during the planned outage (including the unplanned outage, following the extension of the planned outage) of Unit 2 CNE Cernavoda; the purchased quantity of electricity was 176,635 MWh (second half-year of 2018: 97,219 MWh), at an average price of 199.21 lei/MWh (second quarter of 2018: RON 183.78/MWh).

The purchases associated to the unplanned extension of the planned outage of Unit 2 CNE Cernavoda on the spot market (PZU and PI) were in total value of RON 6,881,850, for a total quantity of 34,854 MWh, at an average price of 197.45 RON/MWh.

The PE expenses in the second quarter of 2019 were 3,665,036 lei, and the purchased electricity quantity was 9,580 MWh (second quarter of 2018: RON 966,749, with the purchased quantity of electric power amounting to 7,766 MWh).

The expenses with purchases of electricity and negative imbalances were higher in the second quarter of 2019 than in the second quarter of 2018. The additional contracting during the planned outage, having the role of optimizing the portfolio of contracts and its extension led to the increase of the purchased electricity quantity, at a purchase price higher than the previous period.

3.4. The investment program on June 30, 2019

The total value of the investment program of SNN for 2019 is 256,548 thousand RON (without the component allocated to the payment of the debt service related to long-term loans), a program approved by Resolution no. 6/20.05.2019 of the Ordinary General Assembly of Shareholders of SNN.

The comparative situation of the investment accomplishments (value and percentage) for the first half-year of 2019 compared to the same period of 2018 is presented in the table below:

Year	Value of the investment program [thousand RON]	Performed (01.01 - 30.06) [thousand RON]	Achievement level (01.01 - 30.06) (%)
2019	256,548	136,948	53.4%
2018	244,867	74,582	30.5%

As in the previous years, Nuclearelectrica S.A. structured its investment development program on objectives defined in relation to the needs of the production branches (Cernavoda NPP and Pitesti NFF), so as to achieve a high level of utilization of the production capacity (EAF Energy Availability

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

Factor) in compliance with the nuclear safety norms and the long-term maintenance of the level of excellence in the operation of the plant. At the same time, the goal of the development program is to cover the necessity to upgrade/refurbish certain systems, for economic reasons (specific consumption reductions, improvement of certain parameters related to served processes, with a positive impact on efficiency), and legal ones – the need to implement upgrades associated with nuclear security, environment protection and labor security, representing imperative requirements from the regulatory authorities in the field.

Analysis of the completion degree of the investment program on June 30, 2019

The investment program of SNN for 2019 annexed to BVC was value-sized by considering the ongoing contractual commitments, the estimates regarding the investment objectives to be made, including amounts allocated to investment projects for which the fulfillment of certain requirements outside the control of SNN is anticipated (e.g. prior approvals of regulation authorities, legal terms regarding the completion of public tender procedures, including appeals, obtaining the necessary approvals from SNN corporate bodies, etc.), in order to allow the implementation of these projects by fitting into the approved budget values. The budget engagement degree on June 30, 2019 is over 95%, and the remaining unengaged investment objectives are in various procurement procedure implementation stages. The budget engagement represents the sum of all the endeavors of the company in implementing investments, including already concluded contracts, an advanced progress in obtaining authorizations, approvals, etc., controlled by the company.

The largest investment programs planned to be finalized in 2019 are: acquisition of horizontal and vertical flow detector extraction equipment of the Hesir type, replacing the control part of an excitation system at Unit 2, modules DICA 10 and 11, as well as stage 1 of the modernization and extension of the Physical Protection System. In addition, the investment program includes inspections and capital repairs carried out at Unit 2 during the planned shutdown, other investment projects required within NPP, NFF and the headquarters, as well as investment objectives with completion in the next years.

In the first half-year of 2019, the investment regarding “Equipment for extracting HESIR horizontal and vertical flow detectors” was completed, and for the investments regarding “Replacement of the control section of the excitation system 2–41280–PL 1615 at Unit 2” and “DICA – Module 10” the reception of the works is scheduled for the end of July 2019.

Out of the investment projects provided in the investment program we mention:

- **“Planned outage of Unit 2 CNE Cernavoda (regular general inspections and capital repairs”:** budgeted 79,628 thousand lei – the value degree of implementation as of June 30, 2019 is 69.6%. Although the planned outage of Unit 2 of CNE Cernavoda ended on June 7, 2019, the final value of the implementation degree is to be determined after the completion and acceptance of the inspection report.

- **“Burnt fuel intermediary storage (including SICA Unit 2)”:** budgeted 12,925 thousand lei – the value achievement degree as of June 30, 2019 is 43.8%. In the period January - June 2019, the necessary costs for the intermediary storage of the burnt fuel were delivered according to the contractual schedule. The assembly works for modules 10 and 11 of the type Macstor 200, as well as the procurement procedure for “Physical Protection Expansion Integration Services to Include Combustion Fuel Storage Modules 9, 10 and 11 DICA-CR 27853” are in progress. The completion of Module 10 is estimated for the end of July 2019.

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

- **“Modernization and expansion of the physical security system”**: budget 19,736 thousand lei – the achievement value degree on June 30, 2019 is 15.5%. The priority 2 stage 1 physical-protection works for supplementing the physical-protection system of CNE Cernavoda are in progress.

- **“Improving the CNE Cernavoda response, respectively the nuclear security functions in case of events outside the design bases following the nuclear accident occurred at the Fukushima 1 nuclear plant, Japan”**: budget 31,270 thousands lei - achievement value degree as of June 30, 2019 is 38.9%. Within the objective of changing the destination of the existing constructions on the site of Unit 5, the technical and economic documentation for the design activities was completed, and addendum 5 to the contract was signed, after the completion of the project and the approval of the economic documentation by Cernavoda NPP.

- **“Extending the life cycle of unit 1 by re-tubing the reactor and refurbishing the main systems (studies)”**: budget 3,665 thousand RON - the achievement value degree as of June 30, 2019 is of 6.9%. The procurement procedure for the assessment of the state of the systems and components of the Unit 1 (Condition Assessment) is in the final phase, of verifying the DUAE support documents. It is estimated that the contract will be estimated until the end of August. The integrated engineering service procurement procedure in relation to the extension of the lifecycle to 245,000 EFPH is the stage of analyzing the technical offers and formulating clarifications. The procurement procedure for “Engineering services for drafting the Feasibility Study regarding the Administration of Radioactive Waste generated during the refurbishing of Unit 1 and during the operation after refurbishing” has been launched, and the deadline for submitting tenders is the end of August 2019. The procurement for “Technical and economic documentation regarding the solution for replacing the nuclear fuel channels, calandria tubes and feeders (ICCTCF) of the reactor of Unit 1 of CNE Cernavoda” is to be launched.

- **“Fittings”**, representing procurements of goods and other investment expenses: budgeted at RON 70,999 thousand – the value degree of implementation on June 30, 2019 is 58.8%.

During the first half-year of 2019, it was necessary to identify the inclusion in the investment project for 2019 the common project COG – JP 4597/4400 “Pressure Tube Integrated Material Surveillance Program” (PT-IMSP), with an implemented value in this period of RON 7,359 thousand.

3.5. Activity of the Cernavoda NPP Branch

The operation activity was conducted without events that might have impact an impact on nuclear safety, upon the own personnel, population and environment. The relationship with the regulators was conducted in compliance with the requirements and conditions in the operation licenses.

Over the 6-month period that ended on June 30, 2019, no operation event exceeding level 1 on the international scale of the nuclear events was registered, regarding the degrading of the in depth defense barriers, impact on the site or outside (INDICATOR 1).

The main indicators of the production activity are shown in the following graphics.

Produced/net electrical energy U1 + U2 (MWh)
(Produced electrical energy: 5,367,792/Net electricity delivered: 4,941,684)
(Own technological consumption cumulated for 2019: 8,02%)

Thermal energy delivered to the district heating/sold (Gcal)
(Delivered thermal energy: 58,483/Sold thermal energy: 46,221)

This is a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

Installed capacity factor U1 + U2 (%)
(Cumulated 2019: 87.92%)

Nuclear fuel burn up degree (MWh/KgU)
(Cumulated 2019: 174/Provided in the project: min. 156)

This is a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

Heavy water loss U1+U2 (Kg)
(Cumulated 2019: 3,839/Provided: max. 10,280)

Volume of radioactive emissions in the environment U1+U2 (µSv)
(Total cumulated 2019: 2.63/Annual limit: 250)

This is a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

3.6. Activity of the Pitesti NFF Branch

In the first half-year of 2019, the Pitesti NFF Branch manufactured, controlled and accepted 5,909 nuclear fuel bundles, according to the manufacture plan, all of them within the specifications, and the production of nuclear fuel bundles increased by 1% compared to the same period of 2018, when 5,841 bundles were manufactured, inspected and accepted.

In the period January 1 - June 30, 2019, the Pitesti NFF branch delivered to Cernavoda NPP a quantity of 5,760 nuclear fuel bundles (first half-year of 2018: 5,040 bundles), and complied with the agreed delivery schedule.

In the first half-year of 2019, for the production of nuclear fuel, sintered uranium dioxide powder was consumed, at an average price of RON 392.68 /kg, from the existing stock on January 1, 2019, and from the purchases from CNU (National Company of Uranium) - Feldioara Branch and Cameco Canada.

4. OTHER SIGNIFICANT ASPECTS

4.1. The Project for Units 3 and 4 Cernavoda NPP

The main benchmarks for continuing the Project Units 3 and 4 CNE Cernavoda in the first semester of 2019 are the following:

- In the period January 21 - 23, 2019, a meeting of the mixed work group Romania - China took place regarding IGA, and the following actions were identified: (1) the JVCO establishment as soon as possible to support the implementation of CfD in Romania, ongoing process; (2) the Romanian party to finalize the preparatory technical measures in view of submitting to the Romanian Parliament and to the European Commission the legislative amendments and updates associated with the adoption of the CfD mechanism; (3) SNN and CGN to resume negotiations on the Investors Agreement (“IA”) in preliminary form.

- In meeting of February 4, 2019, the SNN Board of Directors approved the revised mandate of the SNN Negotiating Committee to negotiate the IA and the Articles of Incorporation (“AI”) in a preliminary form to allow the establishment of JVCo by initial minimal cash contribution, calibrated to the development needs of the Project.

- On March 15, 2019, the discussions regarding the IA in preliminary form, and the AI of JVCo were finalized.

- By Resolution no. 4/10.04.2019 of the Extraordinary General Assembly of Shareholders, the following activities regarding Units 3 and 4 Cernavoda NPP were approved:
 1. Approval of the Preliminary Form of the Investors Agreement regarding Units 3 and 4 Cernavoda NPP concluded between China General Nuclear Power Corporation and CGN Central and Eastern Europe Investment (RO) CO.S.A. and S.N. Nuclearelectrica S.A. (item 2 of EGMS agenda from April 10, 2019);
 2. Approval of the authorization of the Chairman of the Board of Directors of S.N. Nuclearelectrica S.A. to sign the Preliminary Form of the Investors Agreement (item 1 above), in the name and on behalf of the Company (item 3 of EGMS agenda from April 10, 2019);

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

3. Approval of the authorization of the Board of Directors of S.N. Nuclearelectrica S.A. to initiate and carry out the necessary steps to finalize the Articles of Incorporation of the project company, in accordance with the provisions set in the Preliminary Form of the Investors Agreement (item 1 above); the mandate thus granted to the Board of Directors of SNN may be assigned to the executive management, and the final form of the Articles of Incorporation of the project company will be submitted for the approval of the Extraordinary General Meeting of Shareholders of SNN (item 5 of EGMS agenda from April 10, 2019).

- On May 8, 2019, SN Nuclearelectrica SA and China General Nuclear Power Corporation and CGN Central and Eastern Europe Investment signed the Preliminary Form of the Investors Agreement regarding the continuation of the Units 3 and 4 Cernavoda NPP Project.
- Resolution no. 9/29.07.2019 of the Extraordinary General Assembly of Shareholders approved the endorsement of the SNN Board of Directors to approve the modification of the deadlines/due dates provided in the preliminary form of the Investors' Agreement related to the Project for Units 3 and 4 of CNE Cernavoda.

4.2. The litigation initiated by the Union of Cernavoda NPP and employees of the Cernavoda NPP Branch

On the docket of the Constanta Court, a case was filed against SNN, no. 5802/118/2017, and its scope is unpaid salary rights, representing the equivalent value of the occupational risk (hazardous conditions) bonus, and the plaintiff is the Union of Cernavoda NPP on behalf of 757 employees of the Cernavoda NPP Branch.

The company deems these claims as groundless, as all due salary rights were paid to the employees, including the amounts of money that are subject to this litigation. The court rejected the exception of the work authority on trial, invoked by SNN, as groundless, and approved the evidence with documents and accounting studies, and prorogated the technical study related to the classification in the radiological risk areas after SNN submitted the documents. The following hearing is on September 27, 2019.

4.3. The litigation initiated by the Free Union Energetica Nucleara '90 and employees of the Cernavoda NPP Branch

On the docket of the Constanta Court, a case was filed against SNN, no. 7036/118/2017, and its scope is unpaid salary rights, representing the equivalent value of the occupational risk (hazardous conditions) bonus, and the plaintiff is the Energetica Nucleara '90 on behalf of 291 employees of the Cernavoda NPP Branch.

The company deems these claims as groundless, as all due salary rights were paid to the employees, including the amounts of money that are subject to this litigation. The court approved the evidence with documents and accounting study, and prorogated the technical expertise related to the classification in the radiological risk areas after SNN submitted the documents. The following hearing is on September 27, 2019.

4.4. The litigation initiated by S.N. Nuclearelectrica S.A. against ArcelorMittal Galati S.A.

The Court of Appeal of Galati approved the appeal filed by plaintiff S.N. Nuclearelectrica S.A. against civil judgment no. 278/20.12.2016 issued by the Court of Law of Galati, Civil Section II in file no. 3490/121/2015, and fully changed the appealed judgment and, in the retrial stage, partially approved the case. Ordered defendant ArcelorMittal S.A. to pay to the plaintiff S.N. Nuclearelectrica S.A. the amount of RON 8,575,245.78, as damage compensations. Rejected as groundless the appeal filed against the judgment of May 26, 2016 issued by the Court of Law of Galati in file no. 3490/121/2015. Ordered the defendant to pay to the plaintiff the amount of RON 142,132.97, trial expenses - merits and appeal, with the right to recourse. S.N. Nuclearelectrica S.A. notified ArcelorMittal Galati S.A. for the payment of RON 1,394,378.75 that is outstanding in order to fully comply with the payment obligation imposed by the Resolution of the Court of Appeal representing damage compensations and the equivalent value of trial expenses, which ArcelorMittal Galati S.A. paid by bank transfer on July 11, 2019.

4.5. Amendment of the Articles of Incorporation of the Company

By Resolution no. 2/04.01.2019 of the Extraordinary General Assembly of Shareholders, the amendment of the Articles of Incorporation of SNN, according to the report submitted to the shareholders for this item on the agenda (item 2 of the EGMS agenda of January 4, 2019), was approved. The amendment is as follows: adding par. (7) to art. 8 which is specifying that the Board of Directors is authorized, for a period of three years, to increase the share capital by issuing new shares in exchange for the contributions of the shareholders up to an authorized capital value of RON 3,015,427,983.

4.6. Activities approved for the increase of the share capital

Resolution no. 2/04.01.2019 of the Extraordinary General Assembly of Shareholders approved the following activities for the increase of the share capital:

1. The appointment by the Trade Registry Office attached to the Bucharest Court of Law of an authorized assessor to appraise the land located on 23 Energiei Street, Cernavoda, Constanta County, in order to increase the share capital of S.N. Nuclearelectrica S.A., as per the note forwarded to the shareholders with regard to this item of the agenda (item 3 of EGMS agenda from January 4, 2019);
2. Conferral of power to the Board of Directors for S.N. Nuclearelectrica S.A. share capital increase up to a maximum value of authorized registered capital of RON 3,015,427,983 lei, according to the note forwarded to the shareholders in relation to this item of the agenda (item 4 of EGMS agenda from January 4, 2019).

4.7. Appraisal mission lead by the World Association of Nuclear Operators “WANO”

By the Current Report published on January 30, 2019, S.N. Nuclearelectrica S.A. is notifying the shareholders and investors on the appraisal mission lead by the World Association of Nuclear Operators “WANO” between 5 – 12 November 2018. This appraisal, carried out at the request of S.N. Nuclearelectrica S.A., by a team of 25 international experts sent by nuclear power plants from all over the world, concluded that the level of nuclear security at Cernavoda NPP is high.

4.8. Changes in the management of the Company

By Resolutions no. 2/04.02.2019 and no. 3/04.02.2019, SNN Board of Directors has approved the appointment of the Chief Executive Officer, Deputy Executive Officer and Chief Financial Officer for a period of 4 years, starting on February 11, 2019, as follows: Mr. Cosmin Ghita – as Chief Executive Officer; Mr. Dan Laurentiu Tudor – as Deputy Executive Officer and Mr. Adrian Gabriel Dumitriu – as Chief Financial Officer.

4.9. Approval of regulated prices and quantities for the period March 1, 2019 - December 31, 2019

By the Current Report published on February 27, 2019, S.N. Nuclearelectrica S.A. informs the shareholders and the investors about the Decision of the National Energy Regulatory Authority no. 326/25.02.2019, according to which S.N. Nuclearelectrica S.A. has the obligation to sell 1,377,328,968 MWh on the regulated market between March 1, 2019 - December 31, 2019 (March - April 2019, and July - December 2019, respectively), representing 13.4% of the total production schedules for 2019 at the regulated price of RON 188.33/MWh. This regulated price does not include the electricity transmission fee, in the amount of RON 1.18 / MWh (according to the Order of the National Regulatory Authority for Energy No. 108 / 20.06.2018).

4.10. Signing the Memorandum of SNN – NuScale Power

On March 19, 2019 a Memorandum of Agreement was signed with NuScale Power for an exchange of technical and economic information on the innovative nuclear technology developed by NuScale Power: nuclear power plant based on light water modular reactors to provide electricity, heat, desalination. This technology is the first and only technology subject to a certification assessment by the Nuclear Regulatory Commission of the United States, globally. The purpose of this Memorandum is to evaluate the development, authorization and construction of small modular reactors as a potential long-term solution for Romania.

4.11. Approving the distribution of the net profit of financial year 2018

By Resolution no. 5/23.04.2019 of the Ordinary General Assembly of Shareholders of SNN the distribution of the net profit for the financial year 2018 by destinations was approved, the total value of gross dividends in value of RON 378,914,310, the value of the gross dividend per share in value of RON 1.25670615, the dividend payment date, namely the date of June 28, 2019 and the payment methods, according to the report submitted to the shareholders for this item of the agenda (item 5 of EGMS agenda from April 23, 2019).

4.12. Planned outage of Unit 2 CNE Cernavoda

Starting from May 3, 2019 at 11:00, Unit 2 CNE Cernavoda entered the planned outage program and the synchronization with the National Energy System was made on June 7, 2019 at 22:00.

During the period of planned outage made once every two years, more than 9,000 activities of the following programs were carried out:

- Preventive and corrective maintenance program;
- Inspection program;

This a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

- The mandatory testing program during the period of planned outages, according to the requirements of the National Committee for Nuclear Activities Control which can be made only with the plant stopped;
- Program for implementation of the project modifications by certain systems/equipment/components.

All the objectives of the planned outage were achieved under safety conditions for the staff of the plant, for the public and the environment, according to the procedures approved used by CNE Cernavoda Branch.

4.13. Major litigations

The situation of the major litigations (in amount of over 500 thousand lei) and of the monetary unevaluated ones in progress on June 30, 2019 is presented in **Annex 4**.

4.14. Other information

The half-yearly report of the Board of Directors for the first semester of 2019 is accompanied by the Revised Simplified Individual Interim Financial Statements on the date and for the period of 6 months that ended on June 30, 2019; these financial statements are published on the website of S.N. Nuclearelectrica S.A. (www.nuclearelectrica.ro), section Relations with Investors.

4. MAIN ECONOMIC FINANCIAL INDICATORS ON 30.06.2019

SNN performances are reflected in the accomplishment of the main economic financial indicators, as follows:

Indicator name	Calculation method	M.U.	Value 30.06.2019 ^{*)}
1. The current liquidity indicator	Current assets/ Current debts	x	4.06
2. Indebtedness degree indicator			
2.1. Indebtedness degree indicator (1)	Borrowed capital/ Equity x 100	%	8.4%
2.1. Indebtedness degree indicator (2)	Borrowed capital/ Engaged capital x 100	%	7.8%
3. Turnover speed, for client debit items	Average customer balance/ Turnover x 180	days	21
4. Asset turnover speed^{**)}	Turnover/ Non-current assets	x	0.37

^{*)} Based on the Revised Simplified Individual Interim Financial Statements on the date and for the 6 month period ended on June 30, 2019.

^{**)} The asset turnover speed is calculated by updating the quarterly turnover (360 days/180 days).

5. ACHIEVEMENT DEGREE OF THE KEY PERFORMANCE INDICATORS

By Resolution no. 12/28.09.2018 of the Ordinary General Meeting of the Shareholders of SNN, the structure of the Board of Directors of SNN was approved, for a 4-year term, starting with September 28, 2018, as follows:

Item no.	Name and surname	Date of mandate expiry
1.	Iulian – Robert Tudorache ^{*)}	28.09.2022
2.	Cosmin Ghita ^{**)}	28.09.2022
3.	Dumitru Remus Vulpescu	28.09.2022
4.	Cristian Gentea	28.09.2022
5.	Elena Popescu	28.09.2022
6.	Cristian Dima	28.09.2022
7.	Mihai Daniel Anitei	28.09.2022

^{*)} *Chairman of the Board of Directors of SNN, in virtue of the Resolution of the Board of Directors no. 165/02.10.2018.*

^{**)} *Also occupies the position of General Manager of SNN.*

By the Resolution of the Board of Directors no. 187/29.10.2018, the administration component of the Administration Plan was approved. By the Resolution of the Board of Directors no. 33/07.03.2019, the management component of the Administration Plan and the overall Administration Plan were approved.

By Resolution no. 3/10.04.2019 of the Ordinary General Meeting of Shareholders of SNN no. 3/10.04.2019, the following were approved:

- the financial and non-financial performance indicators that will form the annex to the contract of mandate of non-executive directors;
- the equivalent value corresponding to the annual variable component of the remuneration of non-executive directors of the company, amounting to 12 monthly fixed allowances;
- the form of the addendum to be concluded to the contract of mandate of the company's non-executive directors.

The mandate contracts and the addendums to the mandate contracts signed by SNN with the members of the Board of Directors provide their key performance indicators, and the quarterly and annual targets for 2019 - 2022. According to the provisions of the mandate contracts (section 5 of Annex 3 to the mandate contracts), the total achievement percentage of the key performance indicators is calculated for each quarter.

The calculation of the total achievement percentage of the key performance indicators for the first quarter of 2019 and the second quarter of 2019 is annexed to this report.

The achievement degree of the key performance indicators is determined by the total achievement percentage of the key performance indicators, in relation to the achievements to the weights of each short, medium and long term indicator. The achievement degree of the key performance indicators is limited to the 100% threshold, even if the achievements exceed the targets proposed by the mandate contract.

This is a free translation from the Romanian version.

In case of any differences between the Romanian and English version, the Romanian version prevails.

Thus, the indicators of the key performance indicators were achieved 95% for the first quarter of 2019 (so over the 75% threshold) and 100% for the second quarter of 2019 in total, for each member of the Board of Directors:

Mandate contract	Achievement level First quarter of 2019	Achievement level Second quarter of 2019 (cummulated)
Board of Directors	95%	100%

**Iulian Robert Tudorache,
Chairman of the Board of Directors**

**Approved,
Adrian Gabriel Dumitriu,
Chief Financial Officer**
